

## Roll Over Automatic Bus Washing Machine

### Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Certification: CE
- Model Number: KL-RBUS
- Minimum Order Quantity: 1 unit
- Price: USD28300
- Packaging Details: plywood case
- Delivery Time: 20 days
- Payment Terms: D/P, D/A, L/C, T/T, Western Union, MoneyGram
- Supply Ability: 1000unit per year

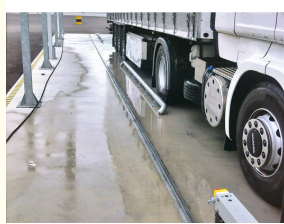

### Product Specification

- Product Name: Rollover Car Washing Machine/drive Through Car Wash Machine
- Dimensions (length \* Width \* Height): 2.5\*4.5\*5.5M
- Foundation (length \* Width \* Height): \*9000\*4100\*5500MM
- Material: Import Components, Hot-dip Galvanized Frame
- Application: Bus Body Cleaning, Bus Washer / Automatic Bus Washing Machine, Van, commercial Vehicle
- Cleaning Speed: 2-3min/car
- Wire Requirements: Three-phase Four Wire
- Power Requirement: 380v/50Kw
- Water Consumption: 80L/car
- Max Washing Height: 4.5M
- Max Washing Width: 3M

## Roll-Over Automatic Bus washing machine

Dimension:

### DG型 CAR WASH

A roll-over bus wash machine, also known as a gantry-style or gantry-type bus wash machine, offers several advantages over other types of bus washing systems. Here are some key advantages of a roll-over bus wash machine:

**Fully Automated:** Roll-over bus wash machines are fully automated, which means they require minimal manual intervention. Once the bus is positioned correctly, the machine takes over the cleaning process, reducing the need for manual labor and saving time.

**Efficient Cleaning:** These machines are designed to provide efficient and thorough cleaning of buses. The gantry system moves back and forth along the length of the bus, ensuring that all areas are reached and cleaned effectively. The brushes or nozzles mounted on the gantry provide a consistent and comprehensive cleaning action.

**Versatility:** Roll-over bus wash machines are versatile and can accommodate various bus sizes and configurations. They can handle different types of buses, including standard buses, articulated buses, double-decker buses, and even specialty vehicles like airport shuttles or tour buses. The machine's adjustable settings and customizable programs allow for flexibility in cleaning different bus designs.

**Time-Saving:** Compared to manual or other types of bus washing systems, roll-over machines are generally faster. The automated process reduces the cleaning time significantly, allowing buses to be cleaned quickly and efficiently. This is particularly beneficial for bus fleets that require frequent cleaning or have tight schedules.

**Consistent Cleaning Results:** With a roll-over bus wash machine, you can expect consistent cleaning results for every bus that goes through the system. The machine's programmed cleaning cycles ensure that the same cleaning process is applied to each bus, resulting in uniform cleanliness and a high-quality finish.

**Enhanced Safety Features:** Roll-over bus wash machines often come equipped with safety features to protect both the bus and the machine itself. These features can include sensors to detect the bus's position, automatic shut-off mechanisms in case of emergencies, and safety interlocks to prevent accidents or damage during the cleaning process.

**Water and Chemical Efficiency:** Many roll-over bus wash machines are designed to be water and chemical efficient. They utilize advanced technologies such as high-pressure water jets, precise nozzle control, and optimized water and detergent distribution systems. This helps minimize water and chemical waste, making the cleaning process more environmentally friendly and cost-effective.

## FAQ

**Q: Are your car wash machine trader or manufacturer?**

A: Yes, we are the car wash machines manufacturer in china. Our brand is Kolonwash. So we have the competitive price, and could provide the spare parts at any time.

**Q: What types car wash machines can you produce?**

A: We can produce the rollover car wash machine, tunnel car wash machine, touchless car wash machine. Besides, could be customized according to your request.

**Q: Can the color and appearance be customized?**

A: Yes, of course, they could be customized, just tell me what color you need, and the drawing of the appearance, we could do according to your request.

**Q: Can I put my brand name on machine instead of your brand name?**

A: Yes, we could stick your brand name on the machines according to your request.

**Q: What is the delivery time?**

A: Our lead time is 10-15 days once get the advanced payment , according to which type you need.

**Q: What about the foundation? How long will it take?**

A: We could provide the drawing of the foundation, it needs around 5 days.

**Q: How to install the machine? And how to do daily maintenance?**

A: We could provide the installation drawing and guided installation video. We could provide the maintenance manual to you.

**Q: How about the warranty time and sales-after service?**

A: Our machine warranty time: 3 years ( 50000 times ), in warranty time, if the machine have any question, we could provide the parts free of charge.

**Q: How to contact you?**
