Coin Card Cash Payment System For Car Washing Machine

Our Product Introduction

## Basic Information

- Place of Origin: Shanghai,China
- Brand Name: Kolon
- Certification: CE
- Model Number: KL-CPS
- Minimum Order Quantity: 1 unit
- Price: USD1300-USD1800
- Packaging Details: canton package
- Delivery Time: 10 days
- Payment Terms: D/P, D/A, L/C, T/T, Western Union, MoneyGram
- Supply Ability: 1000unit per year

Product Specification

- Product Name: Coin & Card & Cash Payment System For Car Washing Machine
- Brand Name: Kolon
- Measurement: 640*490 * 1750MM
- Usage: 1.Put Money Bill/notes In;2. Get Coin/token Out
- Feature: Maintenance And Cleaning,Time-Saving,Convenience,Environmental Considerations,Safety,Versatility
- Voltage: 110V/220V
- Net Weight: 60KG
- Gross Weight Of Equipment: 80KG
- Type: Coin Changer Machine / Labor Saving Machine
- Material: Metal
- Color: Silver;customer's Request

Coin & Card & Cash payment system for car washing machine

Coin-operated car wash" or a "coin-operated self-service car wash. Customers can use coins to activate the car wash equipment and pay for the cleaning services.

The coin-operated system allows customers to control the duration and type of wash by inserting the required amount of coins into the machine.

Product Description:

Simplicity: Coin payment systems are straightforward and easy to use. Customers can simply insert coins into the machine or device to complete the payment, without the need for complex procedures or technology.

Cost-effective: Coin payment systems can be cost-effective for businesses. They typically have lower processing fees compared to electronic payment methods like credit cards or mobile payments. This can be beneficial for small businesses or establishments with low transaction volumes.

Accessibility: Coins are widely available and easily accessible to the general public. Accepting coin payments allows businesses to cater to customers who prefer to use cash or have limited access to electronic payment methods.

No reliance on technology: Coin payment systems do not require electricity or an internet connection to process payments. This can be advantageous in areas with unstable or limited technological infrastructure.

Features:

Coin-Payment system: A secure digital payment system for cryptocurrency transactions.
Merchant Tools: Available, with powerful tools for merchants.
Currencies: Multiple currencies are supported.
Fees: Low fees for cryptocurrency transactions.
Multi-Signature: Available, allowing for multiple signatures for secure transactions.
