Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Certification: CE
- Model Number: KL-518C
- Minimum Order Quantity: 1 unit
- Price: USD10000-USD15000
- Packaging Details: plywood case
- Delivery Time: 20 days
- Payment Terms: D/P, D/A, L/C, T/T, Western Union, MoneyGram
- Supply Ability: 1000unit per year

Product Specification

- Product Name: High Pressure Roll-over Touchless Contactless Car Washing Machine KL-518C
- Dimensions (length * Width * Height): 6000*3100*2500mm
- Foundation (length * Width * Height): 7000* 3200*2600mm((L*W*H))
- Cleaning Speed: 2-3min/car
- Air Pressure: 10 BAR
- Wire Requirements: 3 Phase 5 Cores, 16 Sqm Copper Wire
- Power Requirement: 380v/6Kw
- Water Consumption: 200L/car
- Total Weight Of Equipment: 1050Kg/5CBM
- Washing Time: 3-8mins/car
- Type: Car Washer, Car Washer / Touchless Automatic Car Washing Machine / Labor Saving Machine
- Material: Import Components Hot Dip Galvanized

Dimension drawing

A touchless car washing machine is a type of automated car wash system that cleans vehicles without the use of brushes or physical contact with the car's surface. It relies on high-pressure water jets, detergents, and specialized cleaning techniques to remove dirt, grime, and other contaminants from the car's exterior.

High pressure pump:

Twin-turbo drive:

Main control box:

3cm galvanized steel material:

Dual control system:

Touchless Car Washing Machine Features:

High-pressure water jets: Powerful jets of water are used to dislodge and remove dirt and debris from the car's surface.

Detergent application: Specialized detergents are applied to help break down and remove tough stains and grime.

Multiple wash programs: Touchless car wash machines often offer various wash programs and settings to cater to different levels of cleaning required.

Water recycling system (optional): Some machines incorporate water recycling systems to conserve water and reduce environmental impact.

It has a high water-repellent properties and dries quickly after being applied to the vehicle. The car stays completely dry, shiny and protected from environmental influences. The treated surface is self-cleaning after rain or when rinsing with water. The product has an antistatic effect. Works great even when using hard water and at low temperatures.

Touchless Car Washing Machine Benefits:

Gentle on car paint and finish: Since there are no brushes or physical contact, touchless car washing machines minimize the risk of scratches or damage to the car's paint and finish.

Efficient and time-saving: Touchless car washes are typically faster compared to traditional methods, reducing the time required to clean a vehicle.

Consistent and thorough cleaning: The high-pressure water jets can reach and clean areas that are difficult to access manually, ensuring a more thorough cleaning.

Product packaging

3 years warranty low price auto cleaning equipment car washing machine with Chassis wash function for Southeast Asia.
