

13 Brushes Automatic Tunnel Car Wash Machine length 19520mm

Our Product Introduction

Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Certification: CE
- Model Number: KL-13VF
- Minimum Order Quantity: 1 unit
- Price: USD23800-USD29800
- Packaging Details: plywood case
- Delivery Time: 20 days
- Payment Terms: D/P, D/A, L/C, T/T, Western Union, MoneyGram
- Supply Ability: 1000unit per year

Product Specification

- Product Name: 13 Brushes Automatic Tunnel Car Wash Machine
- Dimensions (length * Width * Height): 19.52*4*2.5m
- Washing Car Size: No Limitation*2300*2100MM (L*W*H)
- Material: Import Components, Hot-dip Galvanized Frame
- Application: Car Body Cleaning, Car Washer / Automatic Car Washing Machine, Van, commercial Vehicle
- Function: Spray Foam, Clean By Foam And Air, Car Washer / Touchless Automatic Car Washing Machine
- Shampoo Consumption: 7ml/Car
- Water Wax Consumption: 12ml/Car
- Water Supply: DN25mm/Waterflow Rate≥80L/min
- Power Requirement: 380 V, 50 HZ, 3 Phases

Full Automatic 13 Brushes Automatic Tunnel Car Wash Machine

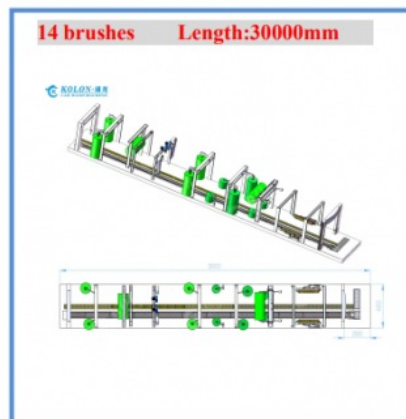

Model: [KL-13VF](#)

Automatic Car Washing Machine Description :

The KL-13VF car wash equipment features high-pressure water system and can clean deep stains to meet different customer requirements. This soft touch car wash machine utilizes soft brushes, which can quickly rotate and move in various directions to remove contaminations on the surface during operation.

Automatic Car Washing Machine Features :

- ◆ The welding-free frame is made of hot dip galvanized steel which makes it quite durable and corrosion resistant.
- ◆ The machine is with 13 brushes. 2 top brush, 6 side brushes and 5 wheel brushes that can wash the car completely.
- ◆ This machine is equipped with 4 drying motors that can ensure drying effect.
- ◆ The combination of automobile detergent and brush washing could remove the contamination on the surface more effectively. Hydrophobic Wax improves drying effect.
- ◆ Detergent application: Specialized detergents are applied to help break down and remove tough stains and grime.

Specification:

Model:	KL-13SF
Machine Size :	19.52*4*2.5m (L*W*H)
Washing Car Size:	No limitation*2300*2100MM (L*W*H)
Wash for	Cars, mini bus, pickup,SUV,MVP
Washing Speed:	Continuous 60/ s/vehicle
Water Consumption:	≤100L /vehicle
Power Consumption:	0.7 kwh/car
Power Supply:	380 V, 50 HZ, 3 phases
Equipment Moving Speed:	8.5m/min
LED monitor	1 pc
Drying blowers	Four blowers 2pcs * 5.5kw 2pcs * 4kw
Power needed :	Running power : Max 28KW Start power : 30KW (to be safe pls prepare 35-40KW supply)
Water supply	DN25mm/Waterflow rate≥80L/min
Air pressure	0.75-0.9Mpa/Airflow rate≥0.1 m³/min

Shampoo consumption	7ml/Car
Water wax consumption	12ml/Car

Products Description:

Automatic foam spraying rollover car wash machine

The KL-11VF car wash equipment features high-pressure water system and can clean deep stains to meet different customer requirements. This soft touch car wash machine utilizes soft brushes, which can quickly rotate and move in various directions to remove contamination on the surface during operation.

Details:

Air-dry power 12kw(4PCS * 3KW)Siemens motor

waterproof,dustproof and shakeproof motor and reducer is Siemens brand.It is very durable and energy saving.

transmission
Long-span outer eight-arm

The embracing large stand brush design boldly uses a large-span external eight-swing arm, and car washing for wide-body models is no longer a problem; and it can be more suitable for cleaning the front and rear bumpers. Adjustable telescopic base, stainless steel cylinder, brush angle can be adjusted as required.

80% of imported accessories

- Schneider AC contactor
- Bonner Optoelectronics
- Schneider travel switch
- Mitsubishi PLC
- Schneider switching power supply
- High-quality transmission

- Standing brush
- Small sprinkler
- Adjusting the conveying table
- Air knife
- cylinder
- Triangle photoelectric bracket

Electrical control system

With intelligent start-stop functions such as over-voltage, under-voltage, phase loss and phase sequence

Using a brush car washer can provide several benefits for your car's appearance and overall maintenance. Here are some key advantages:

Efficient Cleaning: A brush car washer can efficiently remove dirt, grime, and debris from the surface of your car. The bristles of the brush can reach into crevices and hard-to-reach areas, ensuring a thorough cleaning.

Gentle on Paint: High-quality brush car washers are designed with soft bristles that are gentle on your car's paintwork. They minimize the risk of scratching or damaging the exterior surface while still effectively removing dirt.

Time-Saving: Compared to manual washing with a sponge or cloth, a brush car washer allows for quicker and more efficient cleaning. The large brush surface area covers more space with each pass, reducing the time required to clean the entire vehicle.

Versatility: Brush car washers are versatile tools that can be used on various parts of your car, including the body, windows, wheels, and tires. They often come with adjustable handles or extensions, allowing you to reach different areas easily.

Water Conservation: Some brush car washers are designed to be used with a waterless or low-water cleaning solution. This helps conserve water compared to traditional hose-and-bucket methods, making it an environmentally friendly option.

Convenience: Brush car washers are typically lightweight and easy to handle, making the cleaning process more convenient. They are also portable, allowing you to wash your car at home or on the go.

Cost-Effective: Investing in a brush car washer can save you money in the long run. Regularly cleaning your car helps prevent the buildup of dirt, grime, and corrosive substances that can damage the paint and finish. By maintaining your car's appearance, you may reduce the need for expensive detailing or repainting services.

The Kolon Success Cases:

Product packaging

FAQ

Q: Are your car wash machine trader or manufacturer?

A: Yes, we are the car wash machines manufacturer in china. Our brand is Kolonwash. So we have the competitive price, and could provide the spare parts at any time.
