Product Description

Product Description:

Touchless Car Wash Machine

The Touchless Car Wash Machine is a state-of-the-art product designed to provide a convenient and efficient car washing experience. With its advanced features and high-quality performance, it is the perfect solution for car owners who want to keep their vehicles clean and shiny without any hassle.

Product Overview

The Touchless Car Wash Machine is an automatic car wash system that utilizes high-pressure water jets to clean the exterior of vehicles. It is equipped with a Car Wash Tunnel System, which allows cars to pass through the machine without the need for manual cleaning. This not only saves time and effort but also ensures a thorough and consistent cleaning for every vehicle.

Key Features

Water Pressure: Adjustable - The Touchless Car Wash Machine offers adjustable water pressure, allowing users to customize the intensity of the water jets according to their preferences. This ensures a gentle yet effective cleaning for all types of vehicles.

Automatic - The machine is fully automatic, eliminating the need for manual labor. This makes the car washing process faster, more convenient, and less tiring for both car owners and car wash operators.

Hot Water Cleaning - The Touchless Car Wash Machine is equipped with a hot water cleaning feature, which helps to remove stubborn dirt and grime more effectively. This ensures a thorough and deep clean for every vehicle, leaving it spotless and shiny.

High Pressure Water Jet - The machine utilizes high-pressure water jets to clean the exterior of vehicles. This ensures a powerful and efficient cleaning, even for hard-to-reach areas and tough stains.

Multiple Payment Options - The Touchless Car Wash Machine offers multiple payment options, making it convenient for customers to pay for the service. This includes cash, credit/debit cards, and contactless payment methods.

Benefits

Efficient and time-saving car washing process

Thorough and consistent cleaning for all types of vehicles

Gentle yet effective cleaning with adjustable water pressure

Convenient and hassle-free with automatic operation

Deep and thorough cleaning with hot water feature

Powerful and efficient cleaning with high-pressure water jets

Convenient payment options for customers

Conclusion

The Touchless Car Wash Machine is a revolutionary product that offers a convenient, efficient, and high-quality car washing experience. With its advanced features and benefits, it is the perfect solution for car owners who want to keep their vehicles clean and shiny without any hassle. Upgrade your car wash business with the Touchless Car Wash Machine and provide your customers with the best car washing service they deserve.

The KOLON KL360 Touchless Car Wash Machine is the perfect solution for car wash businesses looking for a high-quality, efficient, and easy-to-use car washing equipment. Designed and produced in China, this car wash machine is certified with the CE mark, ensuring its safety and quality standards. With a minimum order quantity of just 1 unit, this product is perfect for both small and large car wash businesses.

Application and Scenarios

The KOLON KL360 Touchless Car Wash Machine is suitable for a wide range of applications and scenarios, including:

Car Wash Tunnel Systems: This car wash machine is designed to be used in car wash tunnel systems, allowing for a smooth and efficient washing process.

High Pressure Car Washing Machine: With its high-pressure water jets, this machine can effectively remove dirt and grime from the surface of the car, leaving it clean and shiny.

Car Wash Tunnel Equipment: The KOLON KL360 can be easily integrated into existing car wash tunnel equipment, making it a convenient choice for car wash businesses.

Auto Car Washer: This touchless car wash machine is perfect for automatic car washing, reducing the need for manual labor and providing a hassle-free experience for customers.

Self-service Car Wash Machine: The KOLON KL360 is also suitable for self-service car wash businesses, allowing customers to easily wash their cars without any assistance.

Overall, the KOLON KL360 Touchless Car Wash Machine is a versatile product that can be used in various settings, providing a convenient and efficient car washing experience for both car wash businesses and customers.

Customization:

Looking for a reliable and efficient car wash system? Look no further than KOLON Touchless Car Wash Machine. As a leading brand in the industry, KOLON offers the ultimate solution for your car wash needs with our KL360 model.

Our touchless car wash machine is designed to provide a hassle-free and convenient car washing experience. With our advanced technology, you can trust us to deliver superior cleaning results without any damage to your vehicle's paint or finish.

Our customized services ensure that our car wash machine meets your specific requirements and preferences. We understand that every car wash business is unique, and we strive to provide tailor-made solutions to meet your needs.

Our automatic car wash machine is equipped with the latest car wash tunnel systems and equipment, making it one of the most efficient and effective machines in the market. With a cleaning speed of less than 5 minutes per car, you can serve more customers in less time.

Our car wash system is also remote-controlled, allowing you to operate it from a distance and save time and effort. The size of our machine is 8*3.7*3.4 meters, making it compact and suitable for any car wash business.

With adjustable water pressure, you can customize the cleaning process according to the type of vehicle and level of dirt. And with our touchless washing method, you can be assured that your car's surface will be free from scratches or damage.

Trust KOLON Touchless Car Wash Machine for a top-notch car wash experience. Contact us now and place your order for our KL360 model. Let us help you take your car wash business to the next level!

Packing and Shipping:

Packaging and Shipping: Touchless Car Wash Machine

Our Touchless Car Wash Machine is carefully packaged and shipped to ensure safe delivery and protection of the product.

Packaging:

Each Touchless Car Wash Machine is packaged in a sturdy cardboard box, with ample padding and protection to prevent any damage during transport. The box also includes a handle for easy carrying.

Inside the box, the machine is further protected by foam padding and plastic wrap to keep all components in place and prevent any scratches or dents.

Shipping:
