Product Description

Product Description:

Rollover Car Wash Machine - Automatic Car Washing Machine for Garage Car Wash

The Rollover Car Wash Machine is the perfect solution for keeping your car clean and shiny without any hassle. This automatic car washing machine is designed for garage car wash usage and is equipped with all the necessary features to provide a thorough and efficient cleaning of your car.

Size

The Rollover Car Wash Machine comes in a standard size that is suitable for most garage car wash setups. It is compact and space-saving, making it a perfect fit for any garage or car wash facility.

Washing System

The washing system of this car washer is based on water spraying, which ensures a gentle yet effective cleaning of your car. This system is designed to remove all kinds of dirt and grime from the surface of your car without causing any damage.

Features

The Rollover Car Wash Machine is equipped with various features to provide a complete and thorough cleaning of your car. These features include:

Foam Spraying: This feature helps in loosening and removing stubborn dirt and grime from your car's surface, leaving it squeaky clean.

Wheel Brushing: The wheel brushing feature is designed specifically to clean the tires and rims, making them look as good as new.

Undercarriage Washing: This feature ensures that the underside of your car is also thoroughly cleaned, removing any dirt and debris that may have accumulated.

Air Pressure

The Rollover Car Wash Machine operates at an air pressure of 2-5 BAR, which is ideal for providing a powerful yet gentle cleaning of your car. This air pressure is carefully regulated to prevent any damage to your car's surface while still providing an effective clean.

Usage

The Rollover Car Wash Machine is designed specifically for garage car wash usage. It is easy to install and operate, making it a convenient and efficient option for keeping your car clean at all times.

Car Wash Equipment

The Rollover Car Wash Machine is a must-have car wash equipment for any garage or car wash facility. Its compact size, efficient cleaning system, and various features make it an essential tool for maintaining the cleanliness and shine of your car.

KOLON Rollover Car Wash Machine KL-5VF

Welcome to KOLON Rollover Car Wash Machine KL-5VF, your trustworthy automatic car washing machine solution! Our brand, KOLON, has been dedicated to providing high-quality car washers for over 10 years. With our advanced technology and professional team, we guarantee to offer you the most efficient and convenient car washing experience.

Product Introduction

KOLON Rollover Car Wash Machine KL-5VF is a state-of-the-art vehicle washing system designed for commercial and personal use. It is equipped with advanced features such as foam spraying, wheel brushing, and undercarriage washing, providing a complete and thorough cleaning for your car. Our machine is powered by high pressure water, ensuring a powerful and effective cleaning result.

Features and Benefits

KOLON Rollover Car Wash Machine KL-5VF is not just an ordinary car washer, it is a perfect combination of efficiency, durability, and safety. Let's take a closer look at its outstanding features:

Efficient: With a washing time of 15 cars per hour, our machine is designed to save you time and effort. You no longer have to wait in long lines at car wash stations, as our machine can quickly and effectively clean your car in just a few minutes.

Convenient: Our machine is fully automatic, which means you can sit back and relax while your car is being washed. No need to manually scrub or rinse your car, our machine will take care of everything.

Durable: Made with high-quality materials and advanced technology, our machine is built to last. It can withstand frequent and heavy use, making it a reliable and long-lasting investment for your car washing needs.

Safe: We understand the importance of safety when it comes to car washing. That's why our machine is designed with safety features such as anti-collision sensors and emergency stop buttons, ensuring the safety of both your car and the operator.
