Product Description

Product Description:

Tunnel Car Wash Machine

The Tunnel Car Wash Machine is a professional and efficient car wash equipment designed for car washing and cleaning. It is suitable for various types of vehicles, including cars, buses, and trucks. This advanced car wash machine is equipped with the latest technology and features, making it the perfect choice for car wash businesses.

Water Supply

The Tunnel Car Wash Machine requires a water supply of DN25mm and a minimum waterflow rate of 80L/min. This ensures a consistent and powerful water flow, providing a thorough and effective cleaning process.

Shampoo Consumption

The Tunnel Car Wash Machine has a low shampoo consumption rate of only 7ml per car. This not only helps to reduce the cost of operating the car wash, but also ensures a safe and eco-friendly cleaning process.

Whatsapp Contact

For any inquiries or assistance, you can easily reach us through Whatsapp at +8617765180874. Our team of experts will be happy to assist you with any questions or concerns you may have regarding the Tunnel Car Wash Machine.

Washing Time

The Tunnel Car Wash Machine has a short washing time of only 3-6 minutes per car. This allows for a quick and efficient cleaning process, ensuring a smooth flow of customers and minimal waiting time.

Power Requirement

The Tunnel Car Wash Machine requires a power supply of 380 V, 50 HZ, and 3 phases. This ensures a stable and reliable power source, allowing for continuous and uninterrupted operation of the car wash machine.

Overall, the Tunnel Car Wash Machine is a high-quality and efficient car wash equipment that is essential for any car wash business. Its advanced features and technology make it the perfect choice for achieving a thorough and effective cleaning of various types of vehicles. With its low shampoo consumption, short washing time, and reliable power requirement, the Tunnel Car Wash Machine is the ideal solution for all your car washing needs.

Contact Information	Whatsapp: +8617765180874
Key Features	Car Wash Tunnel Systems, Car Jet Washer, Car Wash Cleaner

Applications:

Tunnel Car Wash Machine - KOLON KL-9SF

Brand Name: KOLON

KOLON Group is proud to introduce our latest product - the KL-9SF Tunnel Car Wash Machine. As a leading manufacturer of car wash equipment, we are committed to providing the best solutions for efficient and water-saving car washing.
Model Number: KL-9SF

The KL-9SF is a state-of-the-art automatic car wash machine that is designed to provide a thorough and high-quality cleaning experience. With its advanced technology and user-friendly interface, it is the perfect choice for car owners and car wash businesses alike.
Place of Origin: Shanghai, China

All of our products, including the KL-9SF, are manufactured in our factory in Shanghai, China. We take pride in our high-quality standards and strict production processes, ensuring that every product that leaves our factory meets our customers' expectations.
Water Supply: DN25mm/Waterflow Rate≥80L/min

The KL-9SF requires a water supply of DN25mm and a waterflow rate of at least 80L/min to operate at its maximum capacity. With this water supply, it can provide a high-pressure water jet that is essential for efficient cleaning.
Power Requirement: 380 V, 50 HZ, 3 Phases

In order to operate the KL-9SF, a power supply of 380 V, 50 HZ, and 3 phases is needed. This power requirement ensures that the machine can perform at its best and provide the most efficient and thorough cleaning for every car that goes through the tunnel.
Water Consumption: 80L Per Car

One of the key features of the KL-9SF is its water-saving capability. With just 80L of water consumed per car, it is an environmentally friendly option for car washing. This also means cost savings for car wash businesses as they can save on their water bills.
Type: Automatic

Gone are the days of manual car washing. The KL-9SF is a fully automatic car wash machine that requires minimal human intervention. This not only saves time and effort but also ensures consistent and thorough cleaning for every car that passes through the tunnel.
Warranty: 1 Year

At KOLON, we stand behind the quality of our products. That's why we offer a 1-year warranty for the KL-9SF. In the rare case that there are any defects or issues with the machine, our customers can have peace of mind knowing that we will take care of it.
Thank you for choosing KOLON KL-9SF Tunnel Car Wash Machine. Experience the best in efficient and water-saving car washing.
