

Touchless Car Wash Machine Remote Control Pressure Jet 24.5Kw Power

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: KOLON
- Certification: ce
- Model Number: KL360
- Minimum Order Quantity: 1 unit
- Price: negotiable
- Packaging Details: carton
- Delivery Time: 20days
- Payment Terms: TT/PAYPAL
- Supply Ability: 10000/month

Product Specification

- Wire Requirements: 3 Phase 5 Cores, 16 Sqm Copper Wire
- Power: 24.5kw
- Automatic: Yes
- Hot Water Cleaning: Yes
- Remote Control: Yes
- Brushless: Yes
- Washing Method: Touchless
- High Pressure Water Jet: Yes
- Highlight: 24.5Kw Touchless Car Wash Machine,
Pressure Jet Touchless Car Wash Machine,
Remote Control Touchless Car Wash Machine

Product Description

Product Description:

Introducing the future of vehicular cleanliness—the revolutionary Touchless Car Wash Machine, an exemplary model in the car wash tunnel equipment industry. Designed to cater to vehicles of diverse sizes, this machine offers a seamless and efficient car washing experience without the need for physical contact. Through its state-of-the-art technology, the Touchless Car Wash Machine ensures that your car emerges spotlessly clean in less than five minutes, setting a new standard for speed and efficiency in high-pressure car washing machines.

One of the most compelling features of this Touchless Car Wash Machine is the hot water cleaning capability. The use of hot water is instrumental in effortlessly dissolving stubborn dirt and grease, providing a superior clean that cold water simply cannot match. This feature is particularly beneficial for those in colder climates where grime can be more resilient or for commercial vehicles that tend to accumulate more challenging dirt and debris.

The machine's robust build and mechanical configuration necessitate the use of 3 Phase 5 Cores, 16 Sqm Copper Wire, ensuring that it has the power and stability required for continuous operation. This specific wire requirement is crucial for maintaining the high-performance standards of the machine, while also adhering to safety regulations. The copper wire ensures good conductivity and a strong resistance to overheating, making it a reliable choice for powering such high-demand equipment.

Convenience and user-friendliness are at the forefront of the Touchless Car Wash Machine's design, as evidenced by its advanced remote control system. This allows operators to manage the car wash process with ease, enhancing the functionality of the car wash tunnel equipment. The remote control system enables quick adjustments and on-the-fly fine-tuning of the washing cycle, making it an ideal feature for businesses that prioritize customer service and turnaround time.

As a testament to its industrial-grade quality, the machine operates on a 380V 50HZ 3PHASE voltage. This high-powered electrical framework is necessary for the high-pressure pumps and heating systems that are integral to the machine's performance. The voltage specification ensures that the Touchless Car Wash Machine functions optimally, with enough power to sustain the high pressure required for thorough and efficient cleaning.

The cleaning speed of the Touchless Car Wash Machine is unmatched, with the capability to wash a car in less than 5 minutes. This rapid cleaning cycle is a game-changer for businesses looking to maximize throughput. The high-pressure car washing machine does not compromise on quality; it combines speed with effectiveness, ensuring that each vehicle is washed meticulously and rapidly. This impressive cleaning speed allows car wash operators to serve more customers, thereby increasing profitability and customer satisfaction. In summary, the Touchless Car Wash Machine is a pinnacle of innovation in car wash tunnel equipment. It is designed with the user in mind, offering hot water cleaning for an unrivaled wash quality, precise wire requirements for consistent power and safety, the convenience of remote control operation, the necessary voltage to support its powerful cleaning systems, and an extraordinary cleaning speed that sets it apart from its competition. This high-pressure car washing machine is not just an investment in equipment but an investment in quality, efficiency, and the future of car washing.

Applications:

The KOLON KL360 is an advanced **Automatic Car Wash Machine** that represents the pinnacle of touchless car cleaning technology. With its origin in China and boasting a prestigious 'ce' certification, the KOLON KL360 is designed to cater to various application occasions and scenarios. This state-of-the-art machine is ideal for car dealerships, auto repair shops, and car rental agencies looking to provide a quick, efficient, and exceptional car washing experience to their customers.

In addition, the KOLON KL360 is perfect for entrepreneurs who wish to set up a dedicated car wash business. With a **Minimum Order Quantity** of just one unit and **negotiable prices**, it is an accessible option for businesses of any size. The machine's packaging is secure and robust, coming in a well-protected carton to ensure it arrives in perfect condition. The expected **Delivery Time** is a prompt 20 days after placing an order, with payment terms that are flexible, accepting both TT and PAYPAL for customer convenience.

The KOLON KL360 Automatic Car Wash Machine boasts an impressive **Supply Ability** of 10,000 units per month, making it readily available for large-scale deployment. It requires a 3 Phase 5 Cores, 16 Sqm Copper Wire for its power needs, ensuring that the machine operates at optimal efficiency. Additionally, this machine supports **Multiple Payment Options**, enhancing the customer service experience by providing flexibility and ease of transaction.

This machine's functionality is further enhanced by its **Brushless** system, ensuring that the vehicle's paintwork is protected during the wash process. Its **Cleaning Speed** is exceptionally fast, taking less than 5 minutes per car, which significantly helps in reducing customer wait times and increasing business turnover. The **High Pressure Water Jet** technology utilized by the KOLON KL360 ensures that even the most stubborn dirt and grime are effortlessly removed, delivering a washing performance that rivals even the most thorough of hand washes.

The KOLON KL360 provides a solution for different business models and scales, from the small service station that seeks to add value to its services, to the large commercial car wash requiring a **High Pressure Car Washing Machine** to cope with high volumes of traffic.

With its robust design, quick operation, and high-quality results, the KOLON KL360 **Automatic Car Wash Machine** is an invaluable asset for any business looking to excel in the car wash industry.

Introducing the KOLON KL360, a state-of-the-art **Touchless Car Wash Machine** that brings the efficiency and quality of **Car Wash Tunnel Systems** to your business. Our high-powered, **High Pressure Car Washing Machine** offers a fully automated and brushless cleaning solution. Built with the latest **Car Wash Tunnel Equipment** technology, this machine ensures a touchless, thorough clean that protects and preserves the finish of every vehicle. Experience the ease of operation with a user-friendly **Remote Control** system, designed to streamline your car wash service and enhance customer satisfaction.

Support and Services:

Welcome to the Technical Support and Services page for our Touchless Car Wash Machine. Our commitment to excellence ensures that your car wash experience is seamless and efficient. We offer a comprehensive range of services to keep your machine running smoothly.

Installation Support: Our team of skilled technicians will provide complete installation services, ensuring that your Touchless Car Wash Machine is set up correctly for optimal performance.

User Manuals and Documentation: We provide detailed user manuals and documentation to help you understand the functionality and maintenance procedures for your machine. These resources are designed to help you get the most out of your investment.

Maintenance Services: Regular maintenance is key to the longevity and reliability of your Touchless Car Wash Machine. We offer scheduled maintenance services to help prevent downtime and extend the life of your equipment.

Technical Support: Our experienced technical support team is available to assist you with any operational issues you may encounter. We provide troubleshooting guidance and practical solutions to ensure your machine continues to operate efficiently.

Software Updates: We continually improve our software to enhance machine performance and introduce new features. Stay up to date with the latest software updates to ensure your Touchless Car Wash Machine is running at its best.

Replacement Parts and Repair Services: In the event that your machine requires replacement parts or repair services, we have a full inventory of genuine parts and a team of expert technicians ready to restore your machine to its prime condition.

Training and Education: We believe in empowering our customers through knowledge. Our training programs are designed to educate your staff on the safe and effective operation of the Touchless Car Wash Machine, promoting efficiency and safety at your facility.

For any additional information or specific inquiries, please refer to our Contact Us page. We are dedicated to providing you with the highest level of support and service for your Touchless Car Wash Machine.

Packing and Shipping:

Our Touchless Car Wash Machine is packaged with the utmost care to ensure its safe arrival. The product is encased in high-density foam padding and secured in a sturdy, corrugated cardboard box to prevent any movement during transit. The packaging materials are selected for their durability and ability to protect the machine from any potential impacts or environmental factors.

Before shipping, the packaged machine undergoes a final inspection to ensure that it meets our quality standards. We then seal the box with heavy-duty packing tape and affix all necessary labels and documents. The package is clearly marked with "Fragile" and "Handle with Care" to alert carriers of the sensitive nature of the contents.

We ship our Touchless Car Wash Machine using reliable courier services that specialize in handling large and delicate items. Each shipment is provided with a tracking number, allowing you to monitor your package's journey to its destination. We ensure that the machine is delivered within the agreed-upon timeframe and in perfect working condition.

Upon receipt, please inspect the package for any signs of damage before accepting the delivery. If you notice any discrepancies, report them immediately to the carrier and contact our customer service team for assistance. We are committed to providing a smooth and satisfactory product delivery experience.

FAQ:

Q1: What brand and model is the Touchless Car Wash Machine?

A1: The Touchless Car Wash Machine is the KOLON KL360 model.

Q2: Where is the KOLON KL360 Touchless Car Wash Machine manufactured?

A2: The KOLON KL360 Touchless Car Wash Machine is manufactured in China.

Q3: What certifications does the KOLON KL360 Touchless Car Wash Machine have?

A3: The KOLON KL360 Touchless Car Wash Machine is CE certified.

Q4: What is the minimum order quantity for the KOLON KL360 Touchless Car Wash Machine?

A4: The minimum order quantity for the KOLON KL360 Touchless Car Wash Machine is one unit.

Q5: How is the KOLON KL360 Touchless Car Wash Machine packaged for delivery?

A5: The KOLON KL360 Touchless Car Wash Machine is packaged in a carton for delivery.

Q6: What is the delivery time for the KOLON KL360 Touchless Car Wash Machine?

A6: The delivery time for the KOLON KL360 Touchless Car Wash Machine is approximately 20 days.

Q7: What are the payment terms for purchasing the KOLON KL360 Touchless Car Wash Machine?

A7: The payment terms for purchasing the KOLON KL360 Touchless Car Wash Machine are TT (Telegraphic Transfer) or PayPal.

Q8: What is the supply ability of the KOLON KL360 Touchless Car Wash Machine per month?

A8: The supply ability for the KOLON KL360 Touchless Car Wash Machine is 10,000 units per month.

Q9: Is the price of the KOLON KL360 Touchless Car Wash Machine fixed?

A9: The price for the KOLON KL360 Touchless Car Wash Machine is negotiable.
