Five Brushes Rollover Car Wash Machine,  
Garage Car Wash Rollover Machine**

## Product Description

### Product Description:

With an air pressure of 2-5 BAR, this Rollover Car Cleaner can effectively remove dirt, grime, and other tough stains from cars. It has a water consumption rate of 80L per car to 100L per car, making it an efficient and practical choice for car wash businesses.

One of the best features of this car wash machine is its foam spraying capability. It can produce a thick and consistent foam that can effectively clean and remove dirt from the car's surface. The wheel brushing feature is also great for cleaning hard-to-reach areas of the wheels and rims.

The undercarriage washing feature of this machine is also a standout. It can effectively clean the underside of the car, removing dirt, mud, and other debris that can accumulate over time.

This Rollover Car Wash Machine operates at a frequency of 50Hz, making it a reliable and consistent choice for car wash businesses.

With its high-quality features and efficient water consumption rate, it is an excellent investment for any auto detailing shop or car wash business.

Frequency	50Hz
Power Requirement	380v/20.5Kw
Usage	Garage Car Wash
Washing System	Water Spraying
Warranty	3 Year
Water Consumption	80L/car-100L/car

### Applications:

The KL-5VF car washer is equipped with five brushes that ensure a thorough cleaning of your car's exterior. With an air pressure requirement of 2-5 BAR, this car washer is gentle on your car's paintwork, ensuring that it remains scratch-free. The washing system is designed for water spraying, which is effective in removing dirt and grime from your car's surface.

This car washer is perfect for car wash businesses that need to wash several cars within a short period. With a washing time of 15 cars per hour, it ensures that you can attend to several customers within a short period. The water consumption of the KL-5VF car washing machine is between 80L and 100L per car, depending on the level of dirt on the car. This ensures that you don't waste water, making it environmentally friendly.

The KOLON KL-5VF Rollover Car Wash Machine is suitable for various occasions and scenarios. Here are a few examples:

**Car Wash Businesses:** The KL-5VF car washer is ideal for car wash businesses that need to wash several cars quickly. With its automatic features, it ensures that your employees can attend to customers swiftly.

**Gas Stations:** If you run a gas station, the KL-5VF car washing machine is a perfect addition to your services. It will attract more customers to your gas station, who can get their cars washed while refueling.

**Car Dealerships:** Car dealerships can use the KL-5VF car washer to clean cars before delivery to customers. This ensures that the cars are delivered clean and in pristine condition.

**Residential and Commercial Buildings:** The KL-5VF car washer can be installed in residential and commercial buildings where there are parking lots. Tenants can use the car washing machine to clean their cars, making it a convenient addition to the building's services.

In conclusion, the KOLON KL-5VF Rollover Car Wash Machine is an excellent automatic car washing machine suitable for various occasions and scenarios. Its high-quality features, such as five brushes, water spraying system, and fast washing time, make it ideal for car wash businesses, gas stations, car dealerships, and residential and commercial buildings.
