Product Description

Product Description:

The Rollover High pressure wash Car Cleaner is equipped with a powerful water spraying system that effectively removes dirt and grime from your car's surface. With its advanced washing technology, this car wash machine can cover every inch of your car, leaving it sparkling clean and shiny like new.

In addition, the Rollover Car Wash Machine uses a hot air blower for the drying method. This ensures that your car is completely dry before you drive it away, preventing any water spots or streaks on the surface. The hot air blower is also energy-efficient, making it an eco-friendly option for car washing.

This automatic car washing machine is designed to be a standard size, with a machine size of 3.5m(L)*2.2m(W)*2.9m(H). This makes it easy to install and operate, even in small spaces. You can use this machine for personal or commercial use, as it can handle a high volume of cars in a short amount of time.

The Rollover Car Wash Machine comes with a 3-year warranty, ensuring that you get the best value for your investment. Whether you are a car enthusiast or a carwash business owner, this product is perfect for you.
