

Fireproof Galvanized Steel Fireproof Fire Resistant Rolling Door Automatically

Our Product Introduction

for more products please visit us on automaticcarwashing.com

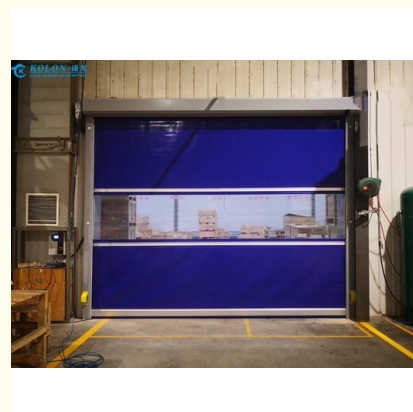

Basic Information

- Place of Origin: China
- Brand Name: Kolon
- Certification: CE
- Model Number: KO-roller
- Minimum Order Quantity: 1 unit
- Packaging Details: plywood case
- Payment Terms: D/A, L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000

Product Specification

- Application: Warehouse, Garage, Workshop
- Rust Resistant: Yes
- Easy To Clean: Yes
- Installation Type: Surface Mount
- Feature: Anti-Theft
- Door Material: Aluminum Alloy
- Size: Customizable
- Design Style: Modern
- Logo: Customized Logo
- Product Type: Others
- Material: Aluminum
- Surface Finish: Finished
- Opening Method: Rolling Pull
- Warranty: 1 Year
- Fireproof: Yes

Product Description

Fireproof Galvanized Steel Fireproof Fire Resistant Rolling Door automatically

Product Features:

Space-saving design: Roll-up doors open vertically, taking up minimal horizontal space compared to traditional swinging or sliding doors. This makes them ideal for areas with limited room.

Easy operation: Roll-up doors are typically motorized and can be opened and closed with the push of a button or via remote control, requiring little physical effort.

Improved security: Many roll-up door models are made from sturdy materials like steel or aluminum, providing a secure barrier against intruders.

Weather resistance: Roll-up doors can help protect against wind, rain, and other inclement weather when closed, keeping the interior space more insulated.

Durability: Roll-up doors are designed to withstand heavy use and frequent opening/closing without wearing down quickly.

Versatility: Roll-up doors are commonly used in a variety of settings, including commercial, industrial, and even residential applications like garages.

Enhanced accessibility: The vertical opening of roll-up doors allows for easier access for vehicles, equipment, and other large items compared to standard doors.

Overall, the compact design, ease of use, and security features make roll-up doors a popular choice in many applications where space efficiency and functionality are priorities.

Key attributes

Industry-specific attributes

Door Material	Aluminum alloy
Feature	Anti-Theft
Main Material	Aluminum alloy
Application	Warehouse
Design Style	Modern

Other attributes

Place of Origin	China
After-sale Service	Online technical support, Free spare parts, Return and Replacement
Project Solution Capability	graphic design
Brand Name	Kolon
Model Number	KO-Roller
Warranty	1 Year
Surface Finishing	Finished

Opening Method	Rolling Pull
Door Type	Aluminum alloy
Produce name	Villa Aluminum Alloy Industrial Roller Shutter Door
Max. Door Size	6m(W)x6m(H)
Door slats	Double layer 0.8mm Aluminum Alloy slats
Slats Type	PU Foam or Hollow
Opening and closing speed	5-15m/s
Wind resistance	8-12level (24.5-32.6m/s)
Power Supply	1-Phase 220V, or 3-Phase 380V
Color	White, Black or Requirement
Application	Warehouse, garage, workshop

Packaging and delivery

Packaging Details	Export Packing stadard 1.Multi-layer plastic bubble film pack all the parts carefully. 2.Cartn box to make all the little parts safe and clearly. 3.Put all the packaged parts into the Export wooden box, and seal the wooden box.
Port	Shanghai/Qingdao/Tianjin
Selling Units:	Single item
Single package size:	20X10X5 cm
Single gross weight:	1.000 kg

Supply Ability

Supply Ability	10000 Piece/Pieces per Year
