- Brand Name: KOLON
- Model Number: KL-EN1
- Minimum Order Quantity: 1 unit
- Delivery Time: 40 days

### Product Specification

- Water Consumption: 80L/car
- Frequency: 50Hz
- Max Washing Length: Unlimited
- Washing Time: 3-5mins/car
- Model: KL-EN1
- Water Consumption: 267L/car
- Drying Time: 1-2 Minutes
- Water Pressure: 0.3-0.5MPa
- The Size Of Equipment: 16M \* 4.6M \* 5.3M
- Air Dryer: 4pcs\*5.5kw
- Chassis Washing: Available
- High Pressure Washing: 3groups
- Highlight: 80L Water Bus Wash Machine

## Product Description

### Product Description:

One of the most notable features of the Bus Wash Machine is its unlimited maximum washing length. This means that regardless of the size of your vehicle, our product can accommodate it. This feature allows for a hassle-free cleaning experience, as you no longer have to worry about the limitations of your equipment.

Safety is always a top priority, which is why we equipped our Bus Wash Machine with an emergency stop button. This feature ensures that in case of any untoward incidents, the machine can be immediately stopped to prevent further damage. This provides peace of mind for the operators and the clients alike.

Water consumption is also a crucial factor, especially for businesses that aim to reduce their environmental impact. Our Bus Wash Machine only uses 80L of water per car, making it an eco-friendly alternative to traditional washing methods. This feature not only benefits the environment but also helps businesses save on their water bills.

The drying time of the Bus Wash Machine is also impressive, taking only 1-2 minutes to completely dry a vehicle. This feature is essential for businesses that have a high volume of vehicles to clean, as it speeds up the process and maximizes productivity.

Water pressure is also an important factor to consider when it comes to washing big vehicles. The Bus Wash Machine has a water pressure of 0.3-0.5MPa, ensuring that even the toughest dirt and grime can be removed. This feature guarantees that your fleet will always look clean and well-maintained.

Investing in our Bus Wash Machine is a wise decision for businesses that prioritize quality and efficiency. Our product is a Truck and Bus Pressure Washer that provides unlimited washing length, safety features, eco-friendly water consumption, speedy drying time, and powerful water pressure. Upgrade your fleet-cleaning game with our top-of-the-line Bus Wash Machine.

### Applications:

The KL-EN1 uses only 80L of water per car, making it an efficient and eco-friendly option for bus cleaning. Its electric power source and 67kw power ensure that the machine delivers consistent and powerful cleaning performance. The KOLON KL-EN1 is a state-of-the-art bus wash machine that is designed to make bus cleaning quick, easy, and effective.

Whether you are a public transportation company looking to maintain a fleet of buses, a private bus operator needing to keep vehicles clean and presentable, or a truck and bus pressure washing service provider, the KL-EN1 is the perfect solution. Its automatic cleaning system ensures that every inch of the bus is cleaned thoroughly and efficiently, saving you time and effort.

The KOLON KL-EN1 is suitable for a wide range of bus cleaning scenarios, including bus depots, maintenance facilities, bus terminals, and other locations where buses are parked. Its advanced features and efficient performance make it an excellent choice for any business or organization that needs to keep buses clean and well-maintained.
