Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Model Number: KL-BS3

Product Specification

- Washing Time: 3-5mins/car
- Drying Time: 1-2 Minutes
- Model: KL-EN1
- Safety Features: Emergency Stop Button
- Power: 67kw
- Water Pressure: 0.3-0.5MPa
- Water Consumption: 267L/car
- Water Consumption: 80L/car
- Highlight: **67 kW Bus Wash Machine,
Water Saving Bus Wash Machine,
5 Minutes Bus Wash Machine**

Product Description

Product Description:

One of the standout features of the KL-EN1 is its impressive washing speed, which allows you to clean more buses in less time. This is especially important for organizations that operate large fleets of buses and need to keep them clean and well-maintained to ensure passenger safety and comfort.

With a frequency of 50Hz, the KL-EN1 is built to last, even with frequent use. It is also equipped with a range of advanced features that make it easy to operate and maintain.

Perhaps the most impressive attribute of the KL-EN1 is its maximum washing length, which is unlimited. This means that you can use it to clean even the largest buses and other commercial vehicles, without having to worry about any size limitations.

Overall, the KL-EN1 is an excellent choice for any organization that needs a reliable and efficient truck and bus pressure washer. Whether you are looking to upgrade your existing municipal bus cleaning system or invest in new big vehicle washing equipment, the KL-EN1 is sure to meet and exceed your expectations.

Features:

Product Name: Bus Wash Machine

Water Pressure: 0.3-0.5MPa

Model: KL-EN1

Power: 67kw

Control System: PLC

Drying Time: 1-2 Minutes

Features:

Municipal Bus Cleaning System

Big Vehicle Washing Equipment

Municipal Bus Cleaning System

Technical Parameters:

Product Attributes	Technical Parameters
Product Name	Big Vehicle Washing Equipment
Model	KL-EN1
Control System	PLC
Washing Speed	5-7 Buses/hour
Washing Time	3-5mins/car
Cleaning Speed	2-3min/car
Water Consumption	80L/car
Water Consumption (Recycling)	267L/car
Water Pressure	0.3-0.5MPa
Power	67kw
Max Washing Length	Unlimited
Product Type	Automatic Bus Cleaning Machine, Municipal Bus Cleaning System

Applications:

The KL-BS1 has a cleaning speed of 2-3 minutes per car, making it a quick and efficient way to clean large vehicles. The water pressure of this truck and bus pressure washer ranges from 0.3-0.5MPa, ensuring that dirt and grime are removed easily. The washing time per car is between 3-5 minutes, which is perfect for busy commercial vehicle cleaning businesses.

One of the most important features of the KOLON KL-BS1 is its safety features. It is equipped with an emergency stop button, ensuring that the machine can be stopped instantly in case of an emergency. This is an important feature for any commercial cleaning business that wants to ensure the safety of its workers and customers.

The KOLON KL-BS1 Bus Wash Machine is perfect for a variety of occasions and scenarios. It can be used in bus depots, trucking companies, and other commercial vehicle cleaning businesses. It is also ideal for car wash businesses that want to expand their services to include big vehicle washing equipment.

With a frequency of 50Hz, the KOLON KL-BS1 is a reliable and efficient machine that can handle the demands of commercial vehicle cleaning. So, if you're looking for a top-of-the-line automatic bus cleaning machine, the KOLON KL-BS1 is the perfect choice for you.
