Product Description

Product Description:

Powered by electricity, this machine is efficient and eco-friendly. You no longer have to worry about the hassle of finding fuel or oil for your cleaning machine. Simply plug it in and watch it do its job.

Cleaning your bus or truck has never been this easy! With a cleaning speed of 2-3 minutes per vehicle, you can get your entire fleet cleaned up in no time. The drying time is also quick and efficient, taking only 1-2 minutes to dry your vehicle after washing.

The Automatic Bus Cleaning Machine is designed to be sustainable and water-efficient. With only 267 liters of water consumed per car, you can rest assured that you are doing your part for the environment while keeping your vehicle clean.

One of the best features of this machine is its unlimited washing length. Whether you have a small minibus or a long coach, this machine can handle it all. No need to worry about vehicle size limitations or having to switch to a different cleaning machine.

Overall, the Automatic Bus Cleaning Machine is a must-have for bus and truck owners who want to maintain the cleanliness and appearance of their vehicles. Its efficiency, sustainability, and ease of use make it the perfect investment for any fleet owner. Say goodbye to manual cleaning and hello to a clean and shiny fleet with our Automatic Bus Cleaning Machine.

Features:

Product Name: Bus Wash Machine

Power Source: Electric

Drying Time: 1-2 Minutes

Cleaning Speed: 2-3min/car

Washing Speed: 5-7 Buses/hour

Water Consumption: 267L/car

Our Bus Wash Machine is the perfect solution for all your big vehicle washing needs. This Municipal Bus Cleaning System uses an electric power source and is equipped with a Truck and Bus Pressure Washer. With a cleaning speed of 2-3 minutes per car and a washing speed of 5-7 buses per hour, this machine is both efficient and effective. Additionally, the drying time is only 1-2 minutes and the water consumption is 267L per car. Trust our Bus Wash Machine to get the job done quickly and thoroughly.

Technical Parameters:

Product Attribute	Value
Product Name	Big Vehicle Washing Equipment / Automatic Bus Cleaning Machine / Truck and Bus Pressure Washer
Model	KL-EN1
Power	67kw
Frequency	50Hz
Power Source	Electric
Washing Time	3-5mins/car
Drying Time	1-2 Minutes
Control System	PLC
Cleaning Speed	2-3min/car
Safety Features	Emergency Stop Button
Max Washing Length	Unlimited

Applications:

One of the key features of this bus wash machine is its frequency of 50Hz, which makes it perfect for use in areas with standard power supply. It is also designed to wash a bus within 3-5 minutes, making it one of the fastest municipal bus cleaning systems in the market. The KL-BS1 is equipped with a PLC control system that makes it easy to operate and monitor. This feature ensures that the machine can be used by anyone, regardless of their technical expertise. Additionally, it has an emergency stop button for added safety during operation.

Another impressive feature of this machine is its unlimited max washing length. This means that it can clean buses of different sizes and lengths, making it a versatile tool for any municipal bus cleaning system.

The KOLON KL-BS1 Bus Wash Machine is suitable for a wide range of product application occasions and scenarios. It can be used in bus depots, bus stations, bus terminals, and other locations where buses are parked. This machine is perfect for municipal bus cleaning systems, as it can efficiently and effectively clean buses in a short period of time.

In conclusion, the KOLON KL-BS1 Bus Wash Machine is a must-have for any municipal bus cleaning system. It is a reliable and efficient tool that can make the cleaning process of buses faster and easier. Get yours today and experience the convenience that comes with

using this high-quality big vehicle washing equipment.
