

Kolon 6steps water treatment system Easy to Maintain Compact Sewage Treatment System For Indoor and Outdoor Installation

Our Product Introduction

For more products please visit us on automaticcarwashing.com

Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Model Number: YPE-6

Product Specification

- Treatment Process: Physical, Chemical, And Biological Treatment
- Design Pressure: $\leq 0.6\text{Mpa}$
- Maintenance: Easy To Maintain And Operate
- Installation: Indoor Or Outdoor
- Material: Stainless Steel
- Warranty: 1 Year
- Machinery Test Report: Provided
- Color: Silver; customer's Request
- Water Treatment Capacity: 1.5-2 Tons Per Hour
- Measurement: 1000*550*1650(mm)
- Highlight: **Easy Maintain Sewage Treatment System ,**
Indoor Sewage Treatment System

Product Description

Kolon 6steps water treatment system Easy to Maintain Compact Sewage Treatment System For Indoor and Outdoor Installation

Product Description:

Operating at temperatures between 5-40 , this Waste Water Purification System is perfect for use in a variety of industries. Whether you are in the food processing, chemical, or pharmaceutical industry, this Industrial Wastewater Treatment Unit can handle your needs. One of the key features of this system is its ability to save money and reduce your environmental impact. The system is designed to be energy-efficient and cost-effective, making it a smart investment for any business. By reducing your environmental impact, you can also improve your company's image and reputation.

With a 1-year warranty, you can trust that this Waste Water Purification System will provide reliable and efficient service for years to come. Whether you are looking to upgrade your current system or install a new one, this Industrial Wastewater Treatment Unit is an excellent choice.

Features:

Product Name: Waste Water Treatment System

Warranty: 1 Year

Machinery Test Report: Provided

Capacity: 5000 M3/day

Core Components: Motor,PLC

Installation: Indoor Or Outdoor

Keywords: Municipal Wastewater Recycling System, Water Reclamation System, Waste Water Purification System

Technical Parameters:

Product Name:	Sewage Treatment Plant
Core Components:	Motor, PLC
Treatment Process:	Physical, Chemical, And Biological Treatment
Application:	Industrial Waste Water Treatment
Water treatment capacity :	1.5-2 tons per hour
Material:	Stainless Steel
Feature:	Save Money, Reduce Environmental Impact
Installation:	Indoor Or Outdoor
Maintenance:	Easy To Maintain And Operate
Machinery Test Report:	Provided
Advantage:	1.High degree of automation, 7-inch LCD screen, one-button start intelligent operation; 2. The maintenance cost is low, and the cost of filtering about 500 tons of sewage is 15 yuan; 3. Easy installation, only need to install three water pipes for inlet and outlet water and sewage discharge; 4. The flux is large and not easy to be fouled. size
Measurement:	1000*550*1650(mm)
Warranty:	1 Year

Applications:

The KOLON YPE-6 Waste Water Treatment System is suitable for use in a variety of scenarios. It can be installed in residential areas to treat sewage and make it safe for discharge into nearby water bodies. It can be used in commercial areas like hotels, restaurants and shopping malls to treat and recycle wastewater for non-potable purposes like flushing toilets and watering gardens. In industrial areas, it can be used to treat chemical wastewater, making it safe for discharge into the environment.

The KOLON YPE-6 Waste Water Treatment System is a versatile product that can be installed both indoors and outdoors. It is available

in silver color or as per the customer's request. It complies with local environmental regulations and comes with a machinery test report. One of the key features of the KOLON YPE-6 Waste Water Treatment System is that it helps save money and reduce environmental impact. By treating and recycling wastewater, it reduces the amount of fresh water needed for various purposes, thereby reducing water bills. It also reduces the amount of wastewater that needs to be discharged into the environment, reducing the impact on natural resources.

The KOLON YPE-6 Waste Water Treatment System is an excellent choice for those looking for a reliable and efficient wastewater treatment solution. Whether you need a Municipal Wastewater Recycling System, a Biochemical Sewage Treatment Facility or a Chemical Wastewater Treatment Installation, the KOLON YPE-6 Waste Water Treatment System is the perfect choice.

Customization:

Our product customization services allow you to tailor the YPE-6 system to your specific needs. You can choose to have the system installed indoors or outdoors, depending on your requirements. Additionally, our customization options can help you save money and reduce your environmental impact, making our wastewater treatment system a smart choice for your business.

The YPE-6 Wastewater Filtration System is manufactured in Shanghai, China, ensuring quality and reliability. Partner with KOLON for a customized solution that meets your wastewater treatment needs.

Support and Services:

Our Waste Water Treatment System product comes with comprehensive technical support and services to ensure optimal performance and minimal downtime. Our team of experienced technicians is available to provide assistance with installation, maintenance, and troubleshooting. We offer remote support via phone and email, as well as on-site support as required. Our services also include regular system inspections and preventative maintenance to ensure that the system is operating at peak efficiency. Additionally, we offer training programs to help operators understand the system and perform routine maintenance tasks. Contact us for more information on our technical support and services for the Waste Water Treatment System product.

Packing and Shipping:

Product Packaging:

System components will be securely packaged in a sturdy cardboard box.

Box will be labeled with appropriate product information and handling instructions for safe transport.

User manual and installation guide will be included inside the box.

Shipping:

Product will be shipped via ground transportation.

Shipping address and contact information will be confirmed prior to shipping.

Expected delivery date will be communicated to the customer.

A tracking number will be provided to the customer for easy tracking of the shipment.

FAQ:

Q: What is the brand name of the waste water treatment system?

A: The brand name of the waste water treatment system is KOLON.

Q: What is the model number of the waste water treatment system?

A: The model number of the waste water treatment system is YPE-6.

Q: Where is the waste water treatment system made?

A: The waste water treatment system is made in Shanghai, China.

Q: What is the capacity of the waste water treatment system?

A: The capacity of the waste water treatment system varies depending on the specific needs of the customer. Please contact us for more information.

Q: What types of waste water can the treatment system handle?

A: The waste water treatment system can handle a variety of waste water types, including industrial and municipal waste water. However, we recommend consulting with our team to ensure that the system is the right fit for your specific needs.
