Product Description

Product Description:

The Rollover Car Cleaner is designed with 7 high-quality brushes that can effectively remove dirt and grime from any vehicle's surface. It uses a water consumption rate of 80L/car to 100L/car, making it an eco-friendly and cost-efficient option for car wash businesses.

One of the standout features of our Rollover Car Wash Machine is its Hot Air Blower drying method. This drying process ensures that every vehicle is dried thoroughly and quickly, making it a perfect fit for busy car wash stations that want to provide fast and efficient service.

Our Rollover Car Wash Machine comes with a 3-year warranty, giving you peace of mind knowing that you are investing in a product that is built to last.

Overall, our Rollover Car Wash Machine is the perfect choice for car wash businesses that want to provide top-quality service to their customers. Its advanced features, low water consumption rate, and efficient drying method make it a top-of-the-line product that will help you stand out in the competitive auto detailing industry.

Water Consumption	80L/car-100L/car
Warranty	3 Year
Power Requirement	380v/20.5Kw
Washing System	Water Spraying
Washing Time	15cars/hour
Frequency	50Hz

Applications:

The KL-5VF rollover car cleaner is an ideal solution for car wash businesses, auto repair shops, and car dealerships. The machine is designed to handle a wide range of vehicle sizes and types, making it a versatile option for any car cleaning operation. The car wash equipment is equipped with foam spraying, wheel brushing, and undercarriage washing features that ensure a thorough cleaning of the vehicle's exterior and underbody.

The KL-5VF rollover car wash machine requires an air pressure of 2-5 BAR and a water consumption of 100-150L per car, making it a cost-effective option for car wash businesses. It also requires a power input of 380v/20.5Kw, which is sufficient to power the machine's various components. The machine's dimensions are 3.5m(L)*2.2m(W)*2.9m(H), making it compact enough to fit into most car wash bays. The KL-5VF rollover car wash machine is suitable for use in a wide range of occasions and scenarios. It can be used in car wash businesses to provide a fast and efficient cleaning service for customers. Auto repair shops can also benefit from the machine's ability to clean vehicles thoroughly before and after repairs. Car dealerships can also use the machine to maintain the appearance of their cars on display and in stock.

Overall, the KL-5VF rollover car wash machine is a reliable and effective solution for car cleaning operations. Its advanced features and compact design make it perfect for use in a variety of occasions and scenarios, making it an ideal choice for anyone looking for a high-quality vehicle washing system.
