## Product Description

### Product Description:

With a frequency of 50Hz, the Truck and Bus Pressure Washer is built to handle even the toughest cleaning jobs. Its high-pressure water jets deliver a powerful blast that removes dirt, grime, and other stubborn debris. And with a water consumption rate of just 80L per car, this pressure washer is both eco-friendly and cost-effective.

But that's not all - the Truck and Bus Pressure Washer also features a quick-drying system that reduces drying time to just 1-2 minutes per car. This means you can get your fleet back on the road faster, without sacrificing quality or cleanliness.

Whether you're looking to maintain a small fleet of buses or a large fleet of trucks, the Truck and Bus Pressure Washer is the perfect solution. Its durable construction and reliable performance make it a top choice among industry professionals and fleet managers alike. So why wait? Invest in the Truck and Bus Pressure Washer today and experience the ultimate in fleet cleaning technology.

### Features:

Product Name: Bus Wash Machine

Control System: PLC

Washing Time: 3-5mins/car

Washing Speed: 5-7 Buses/hour

Power: 67kw

Cleaning Speed: 2-3min/car

This Bus Wash Machine is a Big Vehicle Washing Equipment that is perfect for washing trucks and buses. It comes with a PLC control system, which makes it easy to operate and control. The washing time is fast, with 3-5 minutes per car, and a washing speed of 5-7 buses per hour. It has a powerful motor with 67kw power and a cleaning speed of 2-3 minutes per car. This Bus Wash Machine is also ideal for Municipal Bus Cleaning System.

### Technical Parameters:

Product Name:	Automatic Bus Cleaning Machine
Control System:	PLC
Power Source:	Electric
Power:	67kw
Frequency:	50Hz
Water Pressure:	0.3-0.5MPa
Water Consumption:	80L/car / 267L/car
Washing Time:	3-5mins/car
Washing Speed:	5-7 Buses/hour
Max Washing Length:	Unlimited

### Applications:

The KL-D01 Bus Wash Machine is designed to be used in various occasions and scenarios. It is ideal for use in bus stations, truck stops, and municipal bus cleaning systems. This product can also be used in large industrial facilities that require regular cleaning of their fleet of trucks or buses. With its unlimited washing length, this pressure washer is perfect for any size of vehicle.

The KL-D01 Bus Wash Machine is capable of washing a vehicle in just 3-5 minutes, saving time and labor costs. The water consumption of this product is also low, using only 80L of water per wash, making it environmentally friendly and cost-effective.

This truck and bus pressure washer is perfect for cleaning vehicles that have been exposed to harsh weather conditions, dust, and grime. The pressure washer is powerful enough to remove even the toughest stains from the surface of the vehicle, leaving it looking clean and new.

Overall, the KL-D01 Bus Wash Machine is an essential product for businesses that require regular cleaning of their fleet of trucks or buses. Its efficiency, reliability, and cost-effectiveness make it an ideal choice for any business looking for a high-quality pressure washer that can handle large vehicles with ease.

### Customization:

KOLON offers product customization services for its KL-D01 Bus Wash Machine, a top-of-the-line automatic cleaning machine designed for Big Vehicle Washing Equipment. Our Bus Wash Machine is manufactured in Shanghai, China and boasts a water consumption rate of 80L/car. Safety is our top priority, which is why the machine comes equipped with an emergency stop button and a state-of-the-art PLC control system.

Our Bus Wash Machine is capable of cleaning vehicles of any length, making it an ideal choice for Big Vehicle Washing Equipment. The washing process takes only 3-5 minutes per car, ensuring that your fleet is cleaned and ready to hit the road in no time.

### Support and Services:

Our Bus Wash Machine product comes with comprehensive technical support and services to ensure efficient and trouble-free operation. Our team of experienced technicians is available to provide on-site installation, training, and maintenance services to ensure that your machine operates at peak performance. Our technical support team is also available to provide remote troubleshooting and diagnostic

services to help resolve any issues that may arise.

In addition to technical support, we also offer a range of services to help you get the most out of your Bus Wash Machine. This includes custom design and engineering services to ensure that your machine meets your specific requirements, as well as upgrades and retrofits to keep your machine up-to-date with the latest technology and advancements. We also offer a range of cleaning and maintenance products to help you keep your machine clean and running smoothly.

With our commitment to quality and customer satisfaction, you can trust that our technical support and services will exceed your expectations and help you get the most out of your Bus Wash Machine.

### Packing and Shipping:

Product Packaging:

The Bus Wash Machine will be securely packed in a sturdy cardboard box.

The product will be wrapped in bubble wrap to prevent any damage during transportation.

All necessary installation tools and instructions will be included in the package.

Shipping:

The Bus Wash Machine will be shipped via a reliable courier service.

Shipping times may vary depending on the destination, but we strive to deliver within 7-10 business days.

Customers will receive a tracking number once the product has been shipped.
