Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Model Number: KL-D04

Product Specification

- Washing Speed: 5-7 Buses/hour
- Frequency: 50Hz
- Water Consumption: 80L/car
- Safety Features: Emergency Stop Button
- Water Consumption: 267L/car
- Control System: PLC
- Power: 67kw
- Washing Time: 3-5mins/car
- Highlight: **Fast Bus Cleaning Machine,
0.5MPa Bus Cleaning Machine,
Automatic Bus Cleaning Machine**

Product Description

Product Description:

With a powerful 67kw motor, this pressure washer can deliver water at a pressure of 0.3-0.5MPa, making light work of even the toughest dirt and grime on your buses. The Truck and Bus Pressure Washer is the ideal addition to your cleaning arsenal, allowing you to quickly and effectively clean your fleet of buses.

Thanks to the advanced PLC control system, operating this pressure washer is incredibly easy and intuitive. You can quickly adjust the settings to suit your specific needs and preferences, ensuring that you get the best possible clean every time. The control system also allows you to monitor the cleaning process, giving you complete control over the entire process.

The Truck and Bus Pressure Washer is also incredibly fast, with a washing speed of up to 5-7 buses per hour. This means that you can clean your entire fleet in no time at all, making it the perfect solution for busy bus operators who need to keep their buses clean and running smoothly. And with a drying time of just 1-2 minutes, you can be sure that your buses will be back on the road in no time.

So if you're looking for a reliable, efficient, and effective municipal bus cleaning system, look no further than the Truck and Bus Pressure Washer. With its powerful motor, advanced control system, and lightning-fast washing speed, this pressure washer is the perfect tool for keeping your buses in pristine condition, no matter how many miles they cover.

Features:

Product Name: Automatic Bus Cleaning Machine

Cleaning Speed: 2-3min/car

Water Consumption: 267L/car

Drying Time: 1-2 Minutes

Frequency: 50Hz

Power Source: Electric

Keywords: Truck and Bus Pressure Washer, Automatic Bus Cleaning Machine

Technical Parameters:

Product Attribute	Value
Model	KL-EN1
Power Source	Electric
Power	67kw
Frequency	50Hz
Water Pressure	0.3-0.5MPa
Water Consumption	80L/car
Max Washing Length	Unlimited
Washing Time	3-5mins/car
Cleaning Speed	2-3min/car
Washing Speed	5-7 Buses/hour

Applications:

The KOLON KL-D04 Bus Wash Machine has a powerful motor with a frequency of 50Hz and a power of 67kw. It uses 267L of water per car, which makes it an eco-friendly and water-saving option for your business. With a washing speed of 5-7 buses per hour, this machine is a reliable and time-efficient tool for any bus cleaning operation.

The KOLON KL-D04 Bus Wash Machine is equipped with the latest technology to ensure a thorough and effective cleaning. Its KL-EN1 model provides a high-pressure water jet that removes even the toughest dirt and grime from the surface of the vehicle. This machine is ideal for use in bus depots, transportation companies, and any business that requires a reliable and efficient Bus and Truck Pressure Washer.

Some of the ideal scenarios for using the KOLON KL-D04 Bus Wash Machine include:

Bus depots

Transportation companies

Truck and bus rental companies

Car wash businesses

The KOLON KL-D04 Bus Wash Machine is a Big Vehicle Washing Equipment that is designed to provide a thorough and effective cleaning for all types of buses and big vehicles. Its powerful motor, high-pressure water jet, and eco-friendly water consumption make it a reliable and efficient tool for any business that requires a Municipal Bus Cleaning System.
