Product Description

Product Description:

One of the key features of our Workshop LED luminaires is their IP65 rating, which makes them highly resistant to dust and water. This means that they can be used safely in a wide range of environments, including those that are damp or dusty. Additionally, our Workshop LED ceiling lights have a beam angle of 120 degrees, which ensures that light is distributed evenly and effectively throughout the workspace. This makes them ideal for use in larger areas, where it's important to have ample coverage and visibility.

Our Workshop LED luminaires are designed for surface mount installation, which makes them easy to install and convenient to use. Made from high-quality aluminum, they are sturdy and durable, and are able to withstand the wear and tear of regular use. With a lumen output of 10,000lm, these lights are able to provide bright and efficient lighting, even in large and dimly lit workspaces. Overall, our Workshop LED luminaires are an excellent choice for anyone looking for reliable, high-quality lighting for their workspace. With their advanced features, durable construction, and efficient performance, they are sure to provide many years of reliable service. So why wait? Invest in our Workshop LED ceiling lights today and start enjoying the benefits of top-quality lighting for your workshop or industrial space.

Features:

Product Name: LED Workshop Lights

Color Temperature: 5000K

Material: Aluminum

Installation Type: Surface Mount

IP Rating: IP65

Power Source: Electricity

Illuminate your workspace with our Workshop LED luminaires. These LED workshop overhead lights have a color temperature of 5000K, providing bright and clear lighting for your projects. Made with durable aluminum material, these lights are built to last. The surface mount installation type makes it easy to set up and the IP65 rating ensures that these LED workshop lighting fixtures are resistant to dust and water. Powered by electricity, these lights are a reliable source of illumination for your workshop.

Technical Parameters:

Voltage	120-277V
Power Source	Electricity
Lumens	10,000lm
Color Temperature	5000K
Warranty	5 Years
IP Rating	IP65
Material	Aluminum
Wattage	100W
Usage	Indoor/Outdoor
Installation Type	Surface Mount

Applications:

The installation type for the KOLON Led Pendant Lights is surface mount, which means that it can be easily installed onto the ceiling without taking up too much space. Its color temperature of 5000K ensures that the lighting is bright and clear, making it easier for workers to see what they are doing.

The voltage for this product ranges from 120-277V, making it suitable for a variety of workshop settings. It is also energy-efficient, which means that it can help reduce electricity costs in the long run.

The KOLON Led Pendant Lights are perfect for Workshop LED ceiling lights. They can also be used as LED workshop lamps, making them versatile and practical. Whether it's for automotive repair, woodworking, metalworking, or any other type of workshop, this product is sure to provide the right amount of lighting for any task.

Customization:

Support and Services:

Our LED Workshop Lights come with a 1-year limited warranty. If there are any issues with your product, please contact our customer service team for assistance.

We also offer technical support for installation and troubleshooting. Our team of experts is available to answer any questions you may have about the product.

In addition, we provide services such as product training and maintenance to ensure optimal performance and longevity of the LED Workshop Lights.

Packing and Shipping:

Our LED workshop lights are carefully packaged to ensure that they arrive at your doorstep in perfect condition. Each light is securely wrapped in bubble wrap and placed in a sturdy cardboard box for protection during shipping. The box is then sealed with heavy-duty packing tape to prevent any damage during transit.

We offer free shipping for all orders within the continental United States. Orders are typically processed and shipped within 1-2 business days and delivered within 3-5 business days. We also offer expedited shipping options for an additional fee. Thank you for choosing our LED workshop lights. We hope you enjoy the quality and durability of our product.
