Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Certification: CE
- Model Number: KL-06hw
- Minimum Order Quantity: 1 unit
- Price: negotiation
- Packaging Details: plywood case
- Delivery Time: 60 days
- Payment Terms: TT/PAYPAL, L/C, D/P, D/A, Western Union, MoneyGram
- Supply Ability: 1000 unit per year

Product Specification

- Water Consumption: 80L/car
- High Pressure Washing: 3 groups
- Chassis Washing: Available
- Control System: PLC
- Frequency: 50Hz
- Max Washing Length: Unlimited
- Air Dryer: 4pcs*5.5kw
- Model: KL-EN1
- Max Washing Width: 2.3m
- Water Pressure: 0.3-0.5MPa
- Power Requirement: 380v/20.5Kw
- Drying Time: 1-2 Minutes
- Wire Requirements: Three-phase Four Wire
- Customization: Optional
- Brush Diameter: 0.6m

Product Description

Product Description:

Thanks to its efficient design, the KL-06hw can clean a bus in just 2-3 minutes, making it the perfect choice for busy bus depots and maintenance facilities. And with a washing time of just 3-5 minutes per car, you can keep your fleet looking clean and professional with minimal downtime.

The KL-06hw is designed to withstand heavy use, with durable components that are built to last. And with a frequency of 50Hz, this machine can operate reliably in almost any environment.

Whether you're looking to improve the appearance of your fleet or simply keep your buses as clean as possible, the KL-EN1 Automatic Bus Cleaning Machine is the perfect choice. With its powerful motor, fast cleaning speed, and rugged construction, it's the ultimate tool for any maintenance facility or bus depot.

Considerations

Size and Design: The machine must accommodate different truck sizes and configurations.

Location: Ideally located at a facility where trucks return for maintenance.

Safety: Systems should include features to ensure the safety of operators and the environment.

Features:

High-Pressure Wash: Uses powerful jets of water to remove dirt and waste residues.

Automated Systems: Some setups can automatically guide the truck through the washing process.

Recycling Water: Advanced systems may recycle water to reduce environmental impact.

Heating Elements: Hot water can be used for more effective cleaning, helping to break down grease and grime.

Technical Parameters:

Product Attribute	Technical Parameter
Drying Time	1-2 Minutes
Washing Time	3-5mins/car
Water Consumption	267L/car
Cleaning Speed	2-3min/car
Power	67kw
Water Pressure	0.3-0.5MPa
Max Washing Length	Unlimited
Safety Features	Emergency Stop Button
Frequency	50Hz
Model	KL-06hw

Applications:

The KOLON KL-06hw Bus Wash Machine is perfect for bus companies, transportation hubs, and logistics centers. With a washing speed of 5-7 buses per hour, it is an efficient and time-saving solution for keeping large fleets clean and well-maintained. The machine uses a water pressure of 0.3-0.5MPa to effectively remove dirt, grime, and other contaminants from the surface of the vehicles.

The KOLON KL-01hw Bus Wash Machine has a power of 67kw, making it a powerful and reliable choice for any commercial cleaning operation. It can wash a bus in just 3-5 minutes, which is much faster than traditional manual washing methods. This feature can save a lot of time and labor costs for bus operators.

The KOLON KL-06hw Bus Wash Machine is a great investment for any company that needs to keep their fleet of large vehicles clean and well-maintained. It is easy to operate and maintain, making it a practical choice for busy transportation hubs and logistics centers.

In summary, the KOLON KL-01hw Bus Wash Machine is a municipal bus cleaning system that is designed to provide efficient and effective cleaning for large commercial vehicles. With its truck and bus pressure washer, it can remove even the toughest dirt and grime from the surface of the vehicles. It is a reliable and cost-effective solution for any company that needs to keep their fleet clean and well-maintained.

Customization:

KOLON offers Product Customization Services for its Big Vehicle Washing Equipment - the KL-01hw Automatic Bus Cleaning Machine. Our machines are manufactured in Shanghai, China and come equipped with various safety features including an Emergency Stop Button. Our machines consume only 80L of water per car and have a Washing Speed of 5-7 Buses/hour. The Control System is a PLC and the Power Source is Electric. With our Municipal Bus Cleaning System, you can customize the machine according to your specific needs.

Support and Services:

The Bus Wash Machine product comes with comprehensive technical support and services to ensure that it operates at peak performance. Our team of experienced technicians is available to provide assistance with installation, maintenance, and repair of the machine. Additionally, we offer training for operators to ensure that they are able to use the machine safely and effectively. Our services also include regular maintenance and inspections to prevent breakdowns and ensure that the

machine is always ready to use. In the event of a breakdown or technical issue, our 24/7 support team is available to provide prompt assistance and repairs. We are committed to providing the highest level of support and services to our customers to ensure that they get the most out of their Bus Wash Machine.

Packing and Shipping:

Product Packaging:

1 Bus Wash Machine

1 Instruction Manual

1 Set of Installation Tools

Shipping Information:

Weight: 500 lbs.

Dimensions: 6 ft x 6 ft x 7 ft

Shipping Method: Freight

Shipping Cost: To be determined based on destination

FAQ:

Q: What is the brand name of the bus wash machine?

A: The brand name of the bus wash machine is KOLON.

Q: What is the model number of the bus wash machine?
