

Environmentally-Friendly Bus Wash Machine For Sustainable Vehicle Cleaning

Our Product Introduction

Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Certification: CE
- Model Number: KL-07hw
- Minimum Order Quantity: 1 unit
- Price: negotiation
- Packaging Details: plywood case
- Delivery Time: 60 days
- Payment Terms: TT/PAYPAL, L/C, D/P, D/A, Western Union, MoneyGram
- Supply Ability: 1000 unit per year

Product Specification

- Highlight: Sustainable Vehicle Cleaning Bus Wash Machine
, Environmentally-Friendly Bus Wash Machine

Product Description

Product Description:

The Bus Wash Machine is a state-of-the-art bus exterior washing station that is built to withstand the demands of daily use. It is constructed from high-quality materials that ensure it can handle even the toughest cleaning jobs. The Bus Wash Machine is easy to install and operate, making it an ideal choice for any bus cleaning facility.

The Bus Wash Machine is equipped with advanced cleaning technology that ensures a thorough and efficient cleaning process. It features a powerful spray system that delivers a high-pressure water stream to effectively remove dirt, grime, and other contaminants from the bus exterior. The Bus Wash Machine also comes with a range of cleaning solutions that are specifically formulated to clean buses and leave them looking like new.

The Bus Wash Machine is designed to be user-friendly and easy to operate. It comes with a user-friendly interface that allows operators to control the cleaning process with ease. The interface provides a range of cleaning options, including different cleaning programs, water temperature control, and pressure settings. This makes it easy for operators to customize the cleaning process to meet the specific needs of their bus fleet.

The Bus Wash Machine is also designed with safety in mind. It comes with a range of safety features that ensure the cleaning process is safe for both the operator and the bus being cleaned. The machine is equipped with a range of sensors that detect any potential hazards and automatically shut down the machine if necessary. This ensures that the cleaning process is safe and efficient.

The Bus Wash Machine is an environmentally friendly solution for bus cleaning. It features a water recycling system that recycles the water used during the cleaning process. This reduces water consumption and ensures that the cleaning process is environmentally friendly. The Bus Wash Machine also uses cleaning solutions that are biodegradable and eco-friendly, making it a sustainable solution for bus cleaning.

In summary, the Bus Wash Machine is the ultimate bus cleaner for any bus fleet owner or operator. It is a state-of-the-art bus exterior washing station that is built to withstand the demands of daily use. It is equipped with advanced cleaning technology that ensures a thorough and efficient cleaning process. It is user-friendly and easy to operate, with a range of cleaning options that can be customized to meet the specific needs of your bus fleet. It is also designed with safety and sustainability in mind, making it a reliable and environmentally friendly solution for bus cleaning.

Features:

Product Name: Bus Wash Machine
Bus washing and waxing machine
Automated bus wash equipment
Professional bus cleaning device
High-pressure water jets for thorough cleaning
Detergent application system for effective stain removal
Soft-touch brushes for gentle yet efficient cleaning
Waxing system for added protection and shine
Automatic conveyor system to move the bus through the wash process
Adjustable settings to accommodate different bus sizes and shapes
Easy-to-use control panel for operators
Low water consumption and energy-efficient design
Durable construction for long-lasting use

Technical Parameters:

Product Attribute	Technical Parameter
Product Name	Bus Washing Machine
Alternative Name	Vehicle Detailer Machine, Bus Cleaner
Cleaning Method	High-pressure Water Jets and Brushes
Water Consumption	Approximately 200 Liters Per Wash
Power Supply	380V, 50Hz, 3-Phase
Installed Power	11 kW
Washing Speed	Approximately 5-7 minutes per vehicle
Dimensions	Length: 8 meters, Width: 5 meters, Height: 3 meters
Weight	Approximately 3 tons

Applications:

The KOLON KL-BS2 bus wash machine is suitable for a wide range of application occasions and scenarios. It is an ideal solution for bus companies, transport authorities, and bus depots that need to maintain the cleanliness of their fleet. The machine can be used to wash different types of buses, including transit buses, coach buses, and school buses. It is also suitable for washing other large vehicles, such as trucks and trailers.

The KOLON KL-BS2 bus wash machine is particularly useful in areas with high levels of pollution, dust, and dirt. It can effectively remove stubborn stains and grime from the exterior of the bus, leaving it sparkling clean. The machine is also water-efficient, as it uses a high-pressure water jet to clean the bus, minimizing water wastage.

The KOLON KL-BS2 bus wash machine is easy to operate and maintain. It comes with a user-friendly control panel that allows operators to select the wash program and adjust the water pressure and temperature. The machine also has a self-cleaning function that ensures it remains hygienic and free from bacteria and germs.

In conclusion, the KOLON KL-BS2 bus wash machine is a reliable and efficient transit bus washing system that is suitable for bus depots, transport authorities, and bus companies. It is a professional bus cleaning device that can be used to wash different types of buses and other large vehicles. The machine is easy to operate and maintain, and it comes with CE certification. The packaging details include a sturdy plywood case for safe transportation. If you are looking for a high-quality bus wash machine, the KOLON KL-BS2 is an excellent choice.

Support and Services:

The Bus Wash Machine is a high-tech product that is designed and manufactured to provide efficient and effective cleaning solutions for buses of all sizes. Our technical support and services team is dedicated to ensuring that you receive the best possible service and assistance in the operation and maintenance of your Bus Wash Machine.

Our technical support and services include:

Installation and setup services

Training and education on the proper use of the machine

Preventative maintenance services to ensure optimal performance

Repair and replacement services for any malfunctioning or damaged parts

24/7 customer support to assist with any questions or concerns

We take pride in providing exceptional technical support and services to our customers to ensure that they get the most out of their Bus Wash Machine. Contact us today to learn more about our services.

Packing and Shipping:

Product Packaging:

The bus wash machine will be securely packaged in a wooden crate to prevent damage during transport.

Inside the crate, the machine will be wrapped in protective foam and plastic to prevent scratches and other cosmetic damage.

All necessary parts and accessories will be included in the packaging.

Shipping:

The bus wash machine will be shipped via a reliable and reputable freight carrier.

The shipping cost will be calculated based on the destination and weight of the package.

Once the machine is shipped, a tracking number will be provided to the customer so they can track the shipment online.

The estimated delivery time will be provided to the customer depending on their location and the shipping carrier's estimated delivery time.

FAQ:

Q: What is the brand name of this bus wash machine?

A: The brand name of this bus wash machine is KOLON.

Q: What is the model number of this bus wash machine?

A: The model number of this bus wash machine is KL-BS2.
