Eco-Friendly Bus Cleaner

Product Description

Product Description:

The Bus Wash Machine is a powerful and reliable transit bus washing system that features advanced technology and innovative design to deliver superior cleaning results. This bus washing and waxing machine is built to withstand the demands of daily use and is perfect for use in bus depots, maintenance facilities, and other transit operations.

One of the key features of the Bus Wash Machine is its advanced cleaning system, which is designed to remove dirt, grime, and other debris that can accumulate on transit buses over time. The system uses high-pressure water jets to blast away dirt and grime, while brushes and other cleaning tools work to scrub away stubborn stains and dirt.

In addition to its powerful cleaning capabilities, the Bus Wash Machine is also designed to be easy to use and maintain. The machine comes equipped with user-friendly controls that allow operators to quickly and easily adjust settings and customize their cleaning experience. Maintenance is also a breeze, with easy-to-access components and a simple design that makes it easy to keep the machine running smoothly.

If you're looking for a reliable and effective way to keep your transit buses clean and in top condition, the Bus Wash Machine is the perfect solution. With its powerful cleaning system, easy-to-use controls, and durable construction, this bus cleaner is sure to become an indispensable part of your transit operation.

Features:

- Product Name: Bus Wash Machine
- Vehicle detailer machine
- Professional bus cleaning device
- Vehicle cleaning machine
- High-pressure water jets for effective cleaning
- Automated cleaning cycle for quick and efficient cleaning
- Large capacity water tanks for continuous use
- Multiple brushes for thorough cleaning of different areas of the bus
- Adjustable brush pressure to suit different bus models
- Easy to operate control panel
- Robust and durable construction for long-lasting use
- Low maintenance requirements for cost-effective operation

Technical Parameters:

Product Name:	Vehicle Detailer Machine
Product Type:	Bus Exterior Washing Station
Model Number:	AWM-1000
Dimensions:	6500mm x 5000mm x 4000mm
Maximum Bus Size:	14m x 3.8m x 4.5m
Water Consumption:	120L per bus
Power Consumption:	15kW
Washing Time:	5-10 minutes per bus
Features:	Auto Bus Cleanser, High-Pressure Water Jets, Foam Sprayers, Brush Rollers, Drying Fans

Applications:

The bus wash machine is designed to clean and wax buses of different sizes and models. It is equipped with advanced technology that ensures efficient and effective cleaning. The application of the product is in various scenarios such as bus stations, bus depots, and other commercial bus parking facilities. The KL-BS2 Bus Washing and Waxing Machine is designed to work with minimal supervision, making it an ideal cleaning device for busy bus stations.

The bus wash machine is designed to clean the exterior of buses, removing dirt, grime, and other contaminants that stick to the surface. The machine uses high-pressure water and soap to clean the buses, and it is equipped with brushes that scrub the surface of the bus to remove stubborn stains. The KL-BS2 Bus Washing and Waxing Machine also waxes the surface of the bus, leaving it with a shiny and polished look.

The KL-BS2 Bus Washing and Waxing Machine is ideal for bus companies that want to keep their buses clean and presentable. The machine is also suitable for other organizations that operate buses, such as schools, hospitals, and airports. The product is packaged in a sturdy plywood case, ensuring that it reaches the customer in excellent condition.

Support and Services:
