

Eco-friendly Bus Wash Machine for Environmentally-conscious Buyers

Our Product Introduction

Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Certification: CE
- Model Number: KL-04hw
- Minimum Order Quantity: 1 unit
- Price: negotiation
- Packaging Details: plywood case
- Delivery Time: 60 days
- Payment Terms: TT/PAYPAL, L/C, D/P, D/A, Western Union, MoneyGram
- Supply Ability: 1000 unit per year

Product Specification

- Highlight: Environmentally-conscious Bus Wash Machine, Eco-friendly Bus Wash Machine

Product Description

Product Description:

The Professional Bus Cleaning Device is a highly advanced piece of equipment that utilizes the latest cleaning technologies to deliver outstanding results. It features a powerful motor that produces high-pressure water jets to blast away dirt and grime from the exterior of the bus. The machine also comes equipped with a range of cleaning agents that help to remove tough stains and leave the bus looking sparkling clean.

One of the standout features of the Professional Bus Cleaning Device is its versatility. The machine can be used to clean all areas of the bus, including the roof, sides, and undercarriage. This makes it an ideal solution for bus owners who want a comprehensive cleaning solution that can tackle all aspects of their vehicle.

Another key benefit of the Professional Bus Cleaning Device is its efficiency. The machine is designed to clean quickly and effectively, which means you can get your buses back on the road in no time. This is especially important for bus companies that need to keep their vehicles clean and well-maintained to ensure the safety and comfort of their passengers.

The Professional Bus Cleaning Device is also very easy to use. It comes with a user-friendly control panel that allows you to adjust the water pressure and cleaning agents to suit your specific needs. Additionally, the machine is built with high-quality materials that are designed to withstand heavy use and harsh weather conditions.

Overall, the Professional Bus Cleaning Device is an exceptional cleaning solution for bus owners who demand the very best. Its advanced features, versatility, and efficiency make it a top choice for businesses that want to keep their vehicles looking and running their best. So if you want to invest in a professional bus cleaning device that delivers outstanding results every time, look no further than our innovative machine.

Features:

Product Name: Bus Wash Machine

Bus exterior washing station

Auto bus cleanser

Professional bus cleaning device

Technical Parameters:

Product Name:	Auto Bus Cleanser
Product Type:	Automated Bus Wash Equipment
Dimensions:	10m x 4m x 4m
Water Consumption:	150-200 Liters per Bus
Power Consumption:	15-20 kW per Hour

Applications:

The KOLON KL-BS2 is suitable for use in various occasions and scenarios, including:

Bus depots: The machine is ideal for bus depots where buses are parked and maintained. It can be used to clean and wax the buses after maintenance to keep them in good condition.

Bus stations: The machine can be installed at bus stations to clean and wax buses after they have completed their journeys. This ensures that the buses are always clean and presentable to passengers.

Public transport companies: The machine is also suitable for public transport companies that operate buses. It can be used to clean and wax the buses at the end of the day to prepare them for the next day's operations.

Car wash businesses: The KOLON KL-BS2 can also be used by car wash businesses to clean and wax buses for their clients.

The KOLON KL-BS2 has a supply ability of 1000 units per year, and the delivery time is 60 days. The machine is packaged in a plywood case for safe transportation. Payment can be made through various methods, including TT/PAYPAL, L/C, D/P, D/A, Western Union, and MoneyGram.

Support and Services:

Our Bus Wash Machine product comes with comprehensive technical support and services to ensure optimal performance and longevity of the equipment. Our team of experienced technicians is available to assist with any troubleshooting, repairs, or maintenance needs. We offer on-site training for your staff to ensure proper usage and care of the equipment. Additionally, we provide regular maintenance check-ups and offer a range of replacement parts as needed. Our goal is to ensure that your Bus Wash Machine operates at peak efficiency and is always ready to meet your needs.

Packing and Shipping:

Product Packaging:

The Bus Wash Machine will be securely packed in a wooden crate to prevent any damage during transportation. The crate will be sealed

and labeled with the product name and shipping information.

Shipping:

The Bus Wash Machine will be shipped to the customer's address via a trusted and reliable courier service. The shipping cost will be calculated based on the customer's location and will be added to the final invoice.
