Product Specification

- Highlight: Optimal Cleaning Performance Bus Wash Machine
, Achieve Optimal Cleaning Bus Wash Machine

Product Description

Product Description:

Our Bus Wash Machine is engineered with advanced technology that ensures thorough cleaning of the bus exterior. It is equipped with high-pressure water jets that can remove even the toughest stains and grime from the surface of the bus. Additionally, it has a rotating brush system that can clean the sides and top of the bus with ease.

The Bus Wash Machine is a versatile and user-friendly solution that comes with a range of features to ensure a hassle-free cleaning experience. It has a fully automated system that can be operated with a touch screen control panel. The machine also includes a pre-wash system that can remove excess dirt and debris before the main wash cycle.

The Bus Wash Machine is built with durability and longevity in mind. It is made with high-quality materials that can withstand harsh weather conditions and heavy usage. The machine is also designed to be low-maintenance, with self-cleaning mechanisms that prevent clogging and ensure optimal performance.

Our Bus Wash Machine is the perfect solution for bus cleaning companies, public transportation providers, and anyone who wants to maintain a clean and hygienic bus fleet. With its advanced cleaning technology, user-friendly features, and durable construction, this machine is the ultimate bus cleaner for any business.

In conclusion, if you're looking for a reliable and efficient Bus washing machine, look no further than our Bus Wash Machine. With its advanced cleaning technology, user-friendly features, and durable construction, it's the perfect solution for keeping your bus fleet clean and in top condition.

Features:

Product Name: Bus Wash Machine

Type: Bus washing and waxing machine

Functionality: Vehicle cleaning machine

Usage: Auto bus cleanser

Capacity: Able to wash and wax large buses and other vehicles

Efficiency: High-pressure water jets for thorough cleaning

Convenience: Automatic washing and drying cycle

Durability: Made with sturdy and long-lasting materials

Safety: Equipped with safety measures for both the machine and the vehicles being washed

Flexibility: Adjustable settings to accommodate different types and sizes of vehicles

Technical Parameters:

Product Attribute	Description
Product Name	Vehicle Detailer Machine
Product Type	Transit Bus Washing System
Capacity	Can wash buses up to 45 feet long
Water Usage	Uses approximately 100 gallons of water per wash cycle
Wash Cycle Time	Approximately 10-15 minutes per cycle
Brush Material	Soft, non-abrasive foam material
Drying Method	High-speed air blowers

Applications:

The KL-BS2 is CE certified and manufactured in Shanghai, China, ensuring high-quality standards and durability. It is a versatile machine that can be used in various occasions and scenarios. Here are some of its common application occasions:

Bus depots and terminals

Public transportation hubs

Bus rental companies

Tourist attractions and landmarks

Car wash centers and detailing shops

The KL-BS2 is an ideal solution for bus companies that want to maintain a professional image and provide their passengers with a clean and comfortable ride. It is also suitable for rental companies that want to ensure their buses are in top condition for their clients.

With a minimum order quantity of 1 unit, the KL-BS2 is available for negotiation at a competitive price. Payment terms include TT/PAYPAL, L/C, D/P, D/A, Western Union, and MoneyGram. The KL-BS2 has a supply ability of 1000 units per year and a delivery time of 60 days. The machine is delivered in a sturdy plywood case, ensuring safe transportation and storage.

The KL-BS2 is an excellent investment for bus companies and transportation operators that want to save time and money on cleaning and maintenance costs. Its powerful water jets and waxing system can effectively remove dirt, grime, and other contaminants from the bus's exterior, leaving a shiny and protective layer that lasts for weeks.

In conclusion, the KOLON KL-BS2 is a reliable and efficient bus washing and waxing machine that can be used in various application occasions and scenarios. Its high-quality standards, competitive price, and flexible payment terms make it an attractive investment for bus companies and transportation operators. Contact us today to learn more about this excellent bus cleaner.
