

## 5-7 Buses / Hour Bus Wash Machine With 2-3min/car Cleaning Speed

### Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Model Number: KL-01hw

### Product Specification

- Washing Speed: 5-7 Buses/hour
- Drying Time: 1-2 Minutes
- Water Consumption: 267L/car
- Power: 67kw
- Frequency: 50Hz
- Cleaning Speed: 2-3min/car
- Water Pressure: 0.3-0.5MPa
- Safety Features: Emergency Stop Button
- Highlight: **67kw Bus Wash Machine, Powerful Bus Wash Machine**

## Product Description

### Product Description:

One of the key features of this Bus Wash Machine is its water consumption. It only requires 80L of water per car, which is significantly less compared to other models in the market. This is made possible by the machine's advanced technology that optimizes water usage while still providing excellent cleaning results.

Additionally, this truck and bus pressure washer has a water pressure range of 0.3-0.5MPa, which is strong enough to remove even the toughest dirt and grime. The pressure is adjustable, allowing the user to customize the cleaning intensity based on the vehicle's condition. Another standout feature of this Bus Wash Machine is its power. With a whopping 67kw power source, it can deliver a high level of performance without compromising energy efficiency. This makes it an ideal choice for companies looking to reduce their carbon footprint while maintaining a spotless fleet of vehicles.

The water consumption of this Automatic Bus Cleaning Machine is 267L per car, which is still a reasonable amount considering the size of the vehicle it is cleaning. Moreover, this machine is powered by electricity, which makes it more environmentally friendly compared to other machines that use fossil fuels.

In conclusion, the Truck and Bus Pressure Washer is a must-have for any transportation company that wants to keep their vehicles clean and presentable. Its advanced features, such as optimized water usage, adjustable water pressure, high power output, and energy efficiency make it a reliable and cost-effective choice. Don't settle for anything less than the best – choose our Bus Wash Machine for all your big vehicle cleaning needs!

### Features:

Product Name: Bus Wash Machine

Model: KL-EN1

Power: 67kw

Washing Time: 3-5mins/car

Power Source: Electric

Frequency: 50Hz

Features:

Automatic Bus Cleaning Machine

Truck and Bus Pressure Washer

Municipal Bus Cleaning System

### Technical Parameters:

Product Name:	Truck and Bus Pressure Washer
Power Source:	Electric
Control System:	PLC
Drying Time:	1-2 Minutes
Water Consumption:	80L/car
Power:	67kw
Washing Time:	3-5mins/car
Cleaning Speed:	2-3min/car
Washing Speed:	5-7 Buses/hour
Max Washing Length:	Unlimited

### Applications:

Designed with a frequency of 50Hz and a power of 67kw, this electric-powered bus wash machine ensures that your buses are thoroughly cleaned and rinsed in a quick and hassle-free manner. The KL-01hw also comes with a drying time of just 1-2 minutes, making it a fast and efficient solution for your bus cleaning needs.

Whether you operate a public transit system, a private bus company, or a school bus fleet, the KL-01hw is an ideal choice for keeping your buses clean and well-maintained. Its advanced features, including high-pressure water jets, automatic detergent dispensers, and powerful air dryers, ensure that your buses are cleaned thoroughly and efficiently, without the need for manual labor or additional equipment.

The KL-01hw Bus Wash Machine is suitable for a variety of application occasions and scenarios. It can be used in bus depots, maintenance shops, bus terminals, and other locations where buses are parked and maintained. Its high-speed cleaning and drying capabilities make it an ideal choice for busy locations where buses need to be cleaned quickly and efficiently.

In addition, the KL-01hw is also ideal for use in areas with limited space. Its compact design and efficient operation make it a space-saving solution that can be easily integrated into your existing bus maintenance workflow. With its advanced features and reliable performance, the KL-01hw is the perfect choice for any bus operator looking for an efficient and reliable bus wash solution.

## Customization:

## Support and Services:

The Bus Wash Machine product comes with comprehensive technical support and services to ensure optimal performance and minimal downtime. Our team of expert technicians is available to provide installation, training, and maintenance services to help you get the most out of your investment. Additionally, we offer phone and email support to address any technical issues that may arise. Our commitment to customer satisfaction means that we will work with you to resolve any problems quickly and efficiently, so that you can keep your bus wash machine running smoothly.

## Packing and Shipping:

Product Packaging:

1 Bus Wash Machine unit

Instruction manual

Installation kit

Shipping:

Shipping will be done within 3 business days of receiving the order.

Delivery time may vary depending on the destination.

All products are shipped using reliable and secure carriers.

Shipping cost will be calculated based on the destination and weight of the package.
