

67kw Powerful Automatic Bus Cleaning Machine With PLC Control System Quick 3-5 Minutes Wash

Our Product Introduction

For more products please visit us on automaticcarwashing.com

Basic Information

- Place of Origin: Shanghai, China
- Brand Name: KOLON
- Model Number: KL-01hw

Product Specification

- Max Washing Length: Unlimited
- Water Consumption: 267L/car
- Washing Time: 3-5mins/car
- Drying Time: 1-2 Minutes
- Safety Features: Emergency Stop Button
- Frequency: 50Hz
- Model: KL-EN1
- Power: 67kw
- Highlight: **67kw Bus Wash Machine**

Product Description

Product Description:

Powered by a reliable 67kw motor, the Automatic Bus Cleaning Machine is capable of delivering consistent and reliable performance, making it the perfect choice for busy bus depots and maintenance facilities. And with its advanced PLC control system, this machine is easy to operate and can be customized to meet your specific cleaning needs.

Whether you're looking to clean a single bus or an entire fleet, the Automatic Bus Cleaning Machine is the ideal solution. Its efficient design and powerful cleaning capabilities make it a must-have for any modern bus maintenance facility.

So if you're looking for an easy-to-use and reliable Automatic Bus Cleaning Machine, look no further than this high-quality Municipal Bus Cleaning System. With its advanced features and powerful performance, it's the perfect choice for any bus maintenance facility looking to improve their cleaning process and keep their buses looking their best.

Powered by electricity, this machine is not only environmentally friendly but also cost-effective as it reduces the amount of water used in the cleaning process. Its powerful water pressure ensures that all dirt and grime are removed quickly and efficiently, ensuring that your buses are always looking their best.

Features:

Product Name: Bus Wash Machine

Model: KL-EN1

Water Pressure: 0.3-0.5MPa

Max Washing Length: Unlimited

Washing Time: 3-5mins/car

Control System: PLC

Features: Municipal Bus Cleaning System, Big Vehicle Washing Equipment

Technical Parameters:

Product Attribute	Value
Model	KL-EN1
Power Source	Electric
Frequency	50Hz
Washing Speed	5-7 Buses/hour
Max Washing Length	Unlimited
Washing Time	3-5mins/car
Water Consumption	267L/car
Water Pressure	0.3-0.5MPa
Control System	PLC

Applications:

The KOLON KL-01hw is perfect for municipal bus cleaning systems, bus depots, and other industrial applications where large vehicles need to be cleaned quickly and efficiently. It is a versatile piece of equipment that can handle a wide range of cleaning tasks, including exterior and interior cleaning, and can be used on a variety of surfaces, including metal, plastic, and glass.

With a powerful water pressure of 0.3-0.5MPa and a water consumption rate of 267L/car, the KOLON KL-01hw can quickly remove dirt and grime from large vehicles. The machine is equipped with a drying system that can dry the vehicle in just 1-2 minutes, which is much faster than traditional washing methods.

The KOLON KL-01hw is an environmentally friendly option, as it uses less water than traditional washing methods and is designed to minimize water waste. The machine is easy to use and requires minimal maintenance, making it a cost-effective solution for businesses that need to clean large vehicles on a regular basis.

This Big Vehicle Washing Equipment has a max washing length of unlimited, making it ideal for cleaning buses, trucks, and other large vehicles of any size. The KOLON KL-01hw is a reliable and efficient machine that can help businesses save time and money on their cleaning operations.

Customization:

Support and Services:

The Bus Wash Machine product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experienced technicians is available to assist with installation, troubleshooting, and maintenance. We also offer training services to ensure that operators are properly trained on how to use the machine safely and efficiently. In addition, we provide a range of spare parts and accessories to support any necessary repairs or upgrades. Our goal is to provide our customers with the highest level of support and service to ensure their satisfaction with our product.

Packing and Shipping:

Product Packaging:

The Bus Wash Machine will be securely packaged in a sturdy cardboard box to ensure safe delivery. The machine will be wrapped in protective materials such as bubble wrap and foam to prevent any damage during transit.

Shipping:

Shipping for the Bus Wash Machine will be handled by our trusted shipping partner. The machine will be shipped via ground shipping and will typically arrive within 5-7 business days from the date of purchase. Shipping costs will be calculated at checkout based on the shipping address provided.

FAQ:

A: The brand name of the Bus Wash Machine is KOLON.

Q: What is the model number of the Bus Wash Machine?

A: The model number of the Bus Wash Machine is KL-01hw.

Q: Where is the Bus Wash Machine manufactured?

A: The Bus Wash Machine is manufactured in Shanghai, China.

Q: What types of buses can be washed with the KL-01hw model?

A: The KL-01hw model can wash buses of all sizes, including city buses, coaches, and school buses.

Q: Is the Bus Wash Machine easy to operate?
