Product Description

Product Description:

With its standard size, this Rollover Car Cleaner is perfect for any garage or car wash facility. It is equipped with 5 brushes that are strategically placed to ensure that every inch of your car is thoroughly cleaned. This Car Washer is designed to make sure that your car is sparkling clean in no time.

This Rollover Car Wash Machine is not only efficient but also environmentally friendly. It has a water consumption rate of 80L/car-100L/car, which means that it uses just the right amount of water to clean your car without wasting any. This makes it an ideal choice for those who are conscious about their water usage.

The Rollover Car Wash Machine is easy to use and is designed to provide a hassle-free cleaning experience. With its automated system, all you need to do is drive your car into the machine, and it will do the rest. It is equipped with high-pressure water jets that are powerful enough to remove even the toughest dirt and grime from your car.

In summary, the Rollover Car Wash Machine is a must-have for anyone who wants to keep their car clean and shiny. It is efficient, environmentally friendly, and easy to use. Whether you are running a car wash business or just want to keep your personal car clean, this Car Washer is the perfect solution for you.
