Product Description

Product Description:

The Touchless Car Wash Machine is equipped with advanced technology that guarantees a spotless and scratch-free finish, making it the perfect solution for car owners who want to maintain the value and appearance of their vehicles. With its remote control feature, operating this High Pressure Car Washing Machine is effortless and easy, allowing you to control the entire washing process from a distance. Measuring 8*3.7*3.4 meters, this Car Wash Machine is ideal for car wash businesses and service centers that cater to a high volume of vehicles. Its compact size ensures that it can be installed in any location without taking up too much space. And because it is a touchless car wash machine, it requires minimal maintenance, reducing downtime and increasing productivity.

The Touchless Car Wash Machine is built with high-quality materials, ensuring its durability and longevity. It is also designed to operate quietly, providing a peaceful and pleasant car washing experience for both the driver and the passenger.

In conclusion, if you are looking for an innovative and efficient car washing solution that guarantees a touchless and high-pressure cleaning experience, then the Touchless Car Wash Machine is the perfect choice. Its remote control feature, compact size, and quick cleaning speed make it the ideal car wash machine for businesses that want to provide their customers with a top-notch car washing experience.

Features:

Product Name: Touchless Car Wash Machine

Type: Car Wash Machine

Power: 24.5kw

Applications:

The KOLON KL-SG touchless car wash machine is perfect for car wash tunnel systems because it is self-service and touchless. With its remote control feature, car owners can easily operate the machine themselves. This touchless car wash machine uses high-pressure water to clean the car, which is safe for the paint and body of the vehicle. The water pressure is adjustable, which makes it suitable for different types of vehicles.

The KOLON KL-SG touchless car wash machine is designed to make car washing convenient and efficient. Car owners can use this machine to wash their cars without the need for manual labor. They can simply park their car in the car wash tunnel system, and the machine will do the rest. The touchless feature ensures that the car is cleaned thoroughly without any scratches or damages.

This touchless car wash machine is also perfect for car wash business owners who want to provide their customers with a self-service option. With the KOLON KL-SG touchless car wash machine, car wash business owners can offer their customers a convenient and reliable car wash service. This machine is easy to use and maintain, which makes it perfect for busy car wash businesses.

In summary, the KOLON KL-SG touchless car wash machine is a perfect fit for car wash tunnel systems. It is a self-service machine that uses high-pressure water to clean the car, making it safe for the paint and body of the vehicle. The remote control feature, adjustable water pressure, and touchless washing method make it convenient and efficient for car owners and car wash business owners.
