Applications:

One of the key features of the KOLON KL-9SF Tunnel Car Wash Machine is its ability to consume a minimal amount of shampoo during the washing process. At just 7ml per car, the shampoo consumption rate is low compared to other car wash machines. This makes it an economical choice for car wash businesses that want to save on operating costs. The KOLON KL-9SF Tunnel Car Wash Machine requires a power supply of 380 V, 50 HZ, 3 Phases. The machine is large, with a size of 12500*4000*3000MM, making it suitable for washing cars of all sizes. The washing time for each car is between 3-6 minutes, depending on the level of dirt on the car. The KOLON KL-9SF Tunnel Car Wash Machine is also equipped with a water wax consumption feature. The machine consumes 12ml of water wax per car, which helps to give cars a shiny and clean finish. The KOLON KL-9SF Tunnel Car Wash Machine is suitable for use in a variety of scenarios. It can be used in car wash businesses, petrol stations, and other places where cars need to be washed regularly. The machine is easy to use and requires minimal maintenance, making it a convenient choice for businesses that want to offer car washing services.

In conclusion, the KOLON KL-9SF Tunnel Car Wash Machine is a reliable and efficient car wash machine that is suitable for a variety of applications. It is an economical choice for car wash businesses that want to save on operating costs, and it is easy to use and maintain. Whether you're running a car wash business or need to wash your own vehicles regularly, the KOLON KL-9SF Tunnel Car Wash Machine is a great choice.
