

Automatic car mat cleaner KL-TJ688

Product Introduction: KL-TJ688 Automatic Mat Cleaner

Enhance cleaning efficiency and maintain hygiene with the KL-TJ688—your ideal choice for effective mat cleaning!

Product Features:

Full Stainless Steel Appearance: Stylish and durable, offering superior rust resistance, perfect for various environments.

Brand New Internal Structure: Innovative design extends cleaning time by 60% and improves cleaning effectiveness, ensuring outstanding results every time.

High-Performance Water Absorbing Rod Material: 50% increase in durability and enhanced water absorption for rapid drying, ensuring mats can be used again quickly after cleaning.

Powerful Motor: With a robust 550W motor, the machine operates with greater stability, catering to a wider range of cleaning needs.

Suitable Applications:

Ideal for shopping malls, offices, hotels, and various public spaces, providing an efficient and convenient cleaning solution. Choose the KL-TJ688 for a more efficient clean and professional service!

Specification:

Automatic Mats Cleaner

Model : TJ688

- 不锈钢外观，更高档，更防锈。
- 内置发泡装置，自动抽取泡沫液，使用简便。
- 全新内部结构，清洗时间提高60%，清洗效果更佳。
- 高性能吸水棒材料，耐用度延长50%，吸水性更强。
- 电机功率更大（550W），适用范围更广，更稳定。
- Stainless steel appearance, higher grade, and more rust resistant.
- Built in foaming device, automatic extraction of foam solution, easy to use.
- Brand new internal structure, 60% longer cleaning time, and better cleaning effect.
- High performance water absorbing rod material, with a 50% increase in durability and stronger water absorption.
- The motor power is larger (550W), with a wider range of applications and greater stability.

技术参数 Specifications

TJ688	水洗、泡沫洗、混合洗 Mixed water + foam wash	220V 50Hz	550W	≤60cm	95 x 50 x 105cm	85kg

Benefits:

Auto mat cleaners are devices specifically designed to clean automotive floor mats. These cleaners are typically portable and handheld, allowing users to easily remove dirt, dust, stains, and other debris from their car mats.

Auto mat cleaners often come with various features and attachments to effectively clean different types of mats. They may include rotating brushes or scrubbing pads to agitate the surface of the mat and loosen dirt particles. Some cleaners also have built-in suction capabilities to remove the loosened dirt and water from the mat.

Remove the floor mats from your vehicle and shake off any loose dirt or debris.

Attach the appropriate cleaning attachment or brush to the cleaner, if applicable.

Apply a suitable cleaning solution or carpet cleaner to the mat, following the manufacturer's instructions.

Turn on the cleaner and move it over the surface of the mat in a back-and-forth or circular motion, applying gentle pressure.

If the cleaner has a suction feature, it will simultaneously remove the dirt and excess moisture from the mat. Otherwise, you may need to blot the mat with a clean cloth or towel to absorb any excess moisture.

Repeat the process if necessary or until the mat is clean to your satisfaction.

Allow the mats to dry completely before placing them back in your vehicle.

Packing & Delivery

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.

FAQ

Q: Are your car wash machine trader or manufacturer?

A: Yes, we are the car wash machines manufacturer in china. Our brand is Kolonwash. So we have the competitive price, and could provide the spare parts at any time.
