Product Description:

Heavy-duty cleaning, redefined. □□

Introducing **KOLON 23-meter fully automatic bus & truck contactless wash system**– built to handle the biggest fleets with industrial-grade power and precision.

23-meter touchless bus and truck wash system – no brushes, all power.

Touchless cleaning. Total confidence.

No brushes, no scratches – just pure high -pressure power and precision foam.

Our **23-meter fully automatic touchless wash system** is built for fleets that demand the safest, gentlest clean without compromising on results.

What makes it special?

- ✓ **23-meter track** – fits buses, semi-trucks, and most long-wheelbase vehicles
- ✓ **100% touchless** – zero brushes, zero contact – perfect for painted surfaces, decals, and wraps
- ✓ **Top-lift high-pressure water** – one dedicated system that blasts dirt off front and rear faces
- ✓ **High-flow foam from the top + 45° side foam injection** – covers every curve and crevice
- ✓ **6 powerful dryers** – all mounted on the sides for thorough, streak-free drying in seconds

No rotating jets, no brushes – just intelligent water, foam, and air engineering.

From arrival to shine in one smooth pass. Ideal for transit authorities, logistics hubs, and coach operators who care about their fleet's finish.

This high-performance motor, combined with the machine's advanced cleaning technology, ensures that even the toughest dirt and grime can be easily removed.

Safety is a top priority for us, which is why we have included an Emergency Stop Button in the design of this product. This feature ensures that the machine can be quickly and easily stopped in case of an emergency, providing added peace of mind for operators and users alike.

Water consumption is a key concern for municipal bus companies, which is why we have designed the Municipal Bus Cleaning System to be highly efficient in this regard. This machine uses only 267L of water per bus, making it one of the most water-efficient cleaning systems available today.

Another impressive feature of the Municipal Bus Cleaning System is its ability to clean buses of any length. With a maximum washing length of unlimited, this machine can easily handle even the largest buses in your fleet.

Washing speed is another important factor to consider when choosing a bus cleaning system. The Municipal Bus Cleaning System is capable of washing 5-7 buses per hour, which means that you can get your entire fleet cleaned quickly and efficiently.

If you are looking for a high-performance, reliable, and efficient municipal bus cleaning system, look no further than the Automatic Bus Cleaning Machine. With its advanced features and superior cleaning performance, this machine is sure to meet all of your cleaning needs.

Features:

Product Name: Automatic Bus Cleaning Machine

Frequency: 50Hz

Drying Time: 1-2 Minutes

Water Consumption: 400L/car

Power Source: Electric

Water Pressure: 0.3-0.5MPa

Technical Parameters:

Product Attribute	Value
Safety Features	Emergency Stop Button
Power	65kw
Water Consumption	400L/car
Water Pressure	0.3-0.5MPa
Cleaning Speed	2-3min/car
Drying Time	1-2 Minutes
Washing Time	3-5mins/car
Frequency	50Hz

Max Washing Length	Unlimited
Brushes	no brushes

Applications:

The bus wash machine has a frequency of 50Hz and consumes only 400L of water per car. This makes it an eco-friendly product that helps conserve water while ensuring a thorough wash. With a washing time of 3-5 minutes per car, this product is perfect for busy bus stations and depots that need a fast and reliable cleaning solution. The water consumption of 80L per car makes it a cost-effective solution for your cleaning needs.

The KOLON KL-BS10 is an electric-powered big vehicle washing equipment that is easy to operate. It comes equipped with all the necessary features to ensure a thorough cleaning of your buses and trucks. The pressure washer has a high-pressure output that can remove even the toughest of stains and dirt from the exteriors of your vehicles.

The bus wash machine is suitable for a wide range of applications, including bus stations, depots, and trucking companies. It is an excellent solution for keeping your fleet clean and well-maintained. The KOLON KL-BS10 is also perfect for car wash businesses that cater to large vehicles.

In conclusion, if you are looking for a reliable and efficient big vehicle washing equipment, the KOLON KL-BS10 bus wash machine is the perfect product for you. It is a high-quality pressure washer that is designed to make your bus cleaning tasks easier and hassle-free. So, go ahead and invest in this product today to keep your buses and trucks looking clean and new.

Customization:

Product Customization Services for Automatic Bus Cleaning Machine KL-BS8 - KOLON
