Product Description

Product Description:

Product Overview - Touchless Car Wash Machine

Welcome to the future of car washing with our state-of-the-art Touchless Car Wash Machine. This innovative product is designed to provide a hands-free, fully automatic car washing experience for your customers. With its advanced technology and top-quality components, our touchless car wash is the ideal solution for car wash businesses of all sizes.

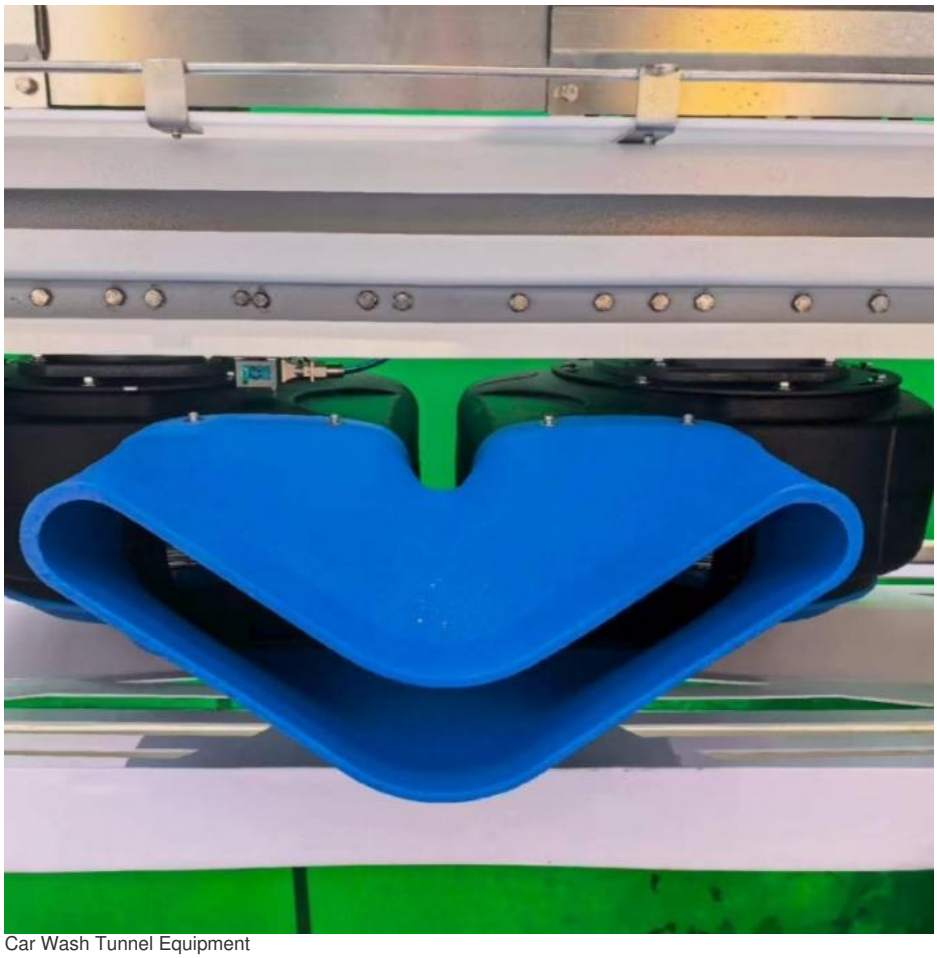

Automatic Car Wash Machine

Our Touchless Car Wash is an automatic car wash machine, meaning it requires minimal human intervention. Once the car is positioned on the conveyor, the machine takes over and does all the work. This not only saves time and effort but also ensures a consistent and thorough cleaning every time.

Car Wash Tunnel Systems

Our touchless car wash is designed to be integrated into a car wash tunnel system. This means that the machine is installed within a tunnel, and the car is driven through it for the cleaning process. The tunnel system allows for a smooth and efficient flow of vehicles, making it suitable for high-volume car wash businesses.

Car Wash Tunnel Equipment

Our touchless car wash machine is equipped with the latest and most advanced car washing technology. It includes high-pressure water jets, hot water cleaning, and adjustable water pressure, ensuring a thorough and effective cleaning of the vehicle. The machine also has a high-speed air dryer to dry the car quickly after washing, creating a complete touchless experience.

Wire Requirements

3 Phase 5 Cores

16 Sqm Copper Wire

Our touchless car wash machine requires a 3 Phase 5 Cores wire system for its operation. This ensures a stable and powerful power supply to the machine, allowing it to function efficiently. We also recommend using 16 Sqm copper wire for optimum performance and durability of the machine.

Hot Water Cleaning

One of the key features of our touchless car wash machine is its ability to provide hot water cleaning. This not only helps in removing tough dirt and grime but also gives a more thorough and gentle cleaning to the vehicle. The hot water also helps in sanitizing the car, making it an ideal choice for a touchless car wash experience.

High Pressure Water Jet

Our touchless car wash machine is equipped with high-pressure water jets that can effectively remove dirt, grime, and other particles from the car's surface. The high-pressure water jet is gentle enough to not cause any damage to the car's paint or finish, yet powerful enough to provide a thorough and effective cleaning.

Water Pressure: Adjustable

The water pressure in our touchless car wash machine is adjustable, allowing for a customized cleaning experience. This means that the water pressure can be increased or decreased depending on the type of vehicle or the level of cleaning required. This feature makes our touchless car wash suitable for all types of vehicles, from small cars to large trucks.

Experience the future of car washing with our Touchless Car Wash Machine. With its automatic operation, advanced technology, and top-quality components, it is the perfect solution for your car wash business. So, upgrade your car wash tunnel system with our touchless car wash and provide your customers with a touchless, efficient, and thorough car washing experience.

Applications:

KOLON KL-360plus Touchless Car Wash Machine

Brand Name: KOLON

KOLON KL-360plus Touchless Car Wash Machine is a high pressure car washing machine that utilizes advanced technology to provide a touchless car washing experience. This product is designed and manufactured by KOLON, a renowned company based in China, known for its high-quality car wash tunnel equipment and systems.
Model Number: KL-360plus

The KL360 model is the latest addition to KOLON's line of touchless car wash machines. It is equipped with innovative features and cutting-edge technology to provide efficient and effective car washing services.
Place of Origin: China

KOLON KL-360plus Touchless Car Wash Machine is proudly made in China, a country known for its advanced technology and high-quality manufacturing processes. Every component of the machine is carefully crafted and tested to ensure its durability and reliability.
Certification: CE

KOLON KL-360plus Touchless Car Wash Machine is certified by CE, a mark that confirms the product meets the requirements of the European Union's health, safety, and environmental protection standards. This certification ensures that the machine is safe to use and environmentally friendly.
Minimum Order Quantity: 1 unit

KOLON KL-360plus Touchless Car Wash Machine can be purchased in any quantity, with a minimum order requirement of just one unit. This makes it suitable for both small and large businesses, as well as individual car owners.
Price: negotiable

The price of KOLON KL-360plus Touchless Car Wash Machine is negotiable, depending on the quantity ordered and any additional customization requests. KOLON aims to provide competitive pricing for its high-quality products, making it an attractive option for businesses looking to invest in a touchless car wash machine.
Packaging Details: carton

KOLON KL-360plus Touchless Car Wash Machine is packaged in sturdy cartons to ensure its safe delivery. The machine is carefully packed and protected to prevent any damages during transportation.
Delivery Time: 20 days

Once an order is placed, KOLON KL-360plus Touchless Car Wash Machine can be delivered within 20 days. This fast delivery time makes it ideal for businesses looking to quickly set up a touchless car wash service.
Payment Terms: TT/PAYPAL

KOLON offers flexible payment options for its customers, including TT (telegraphic transfer) and PayPal. This allows for convenient and secure transactions for customers from all around the world.
Supply Ability: 10000/month

KOLON has a strong production capacity, with the ability to supply 10,000 Kl-360plusTouchless Car Wash Machines per month. This ensures a steady and reliable supply for businesses with high demand for touchless car wash services.
Automatic: Yes

KOLON KL-360plus Touchless Car Wash Machine is fully automatic, eliminating the need for manual labor. This not only saves time and effort but also ensures a consistent and efficient car washing process.
High Pressure Water Jet: Yes

The KL-360plus model is equipped with a high-pressure water jet that effectively removes dirt, grime, and other tough stains from the surface of the car. This ensures a thorough and deep cleaning, leaving the car sparkling clean.
Washing Method: Touchless

KOLON KL-360plus Touchless Car Wash Machine uses advanced touchless technology to wash cars without any physical contact. This gentle yet powerful method is safe for all types of vehicles, including those with delicate paint finishes.
Size: 8*3.7*3.4 Meters

The KL-360plus Touchless Car Wash Machine has a compact size of 7.5*3.8*3.35M meters, making it suitable for installation in various locations, such as gas stations, car wash facilities, and parking lots.
Brushless: Yes

KOLON KL-360plus Touchless Car Wash Machine does not use any brushes during the washing process, ensuring a scratch-free and gentle cleaning. This makes it a preferred choice for car owners who want to maintain the pristine condition of their vehicles.
With its advanced technology, efficient performance, and user-friendly features, KOLON KL360 Touchless Car Wash Machine is the perfect solution for businesses looking to provide high-quality touchless car wash services. Invest in KOLON and experience the future of car washing technology.

Packing and Shipping:

Touchless Car Wash Machine Packaging and Shipping

Our Touchless Car Wash Machine is carefully packaged to ensure its safe arrival at your doorstep. Here's what you can expect when you receive your order:

Secure Packaging: Each component of the car wash machine is securely packed in bubble wrap or foam to prevent any damage during shipping.

Sturdy Box: The machine is then placed in a sturdy cardboard box to provide additional protection.

Clear Labeling: The box is labeled with the product name and a "Fragile" sticker to alert the delivery personnel.

Instruction Manual: You will also find an instruction manual inside the box to guide you through the setup and operation of the machine.

For shipping, we use trusted carriers to ensure your order is delivered on time and in good condition. Once your order is shipped, you will receive a tracking number to monitor its progress.

With our careful packaging and reliable shipping, you can be confident that your Touchless Car Wash Machine will arrive safely and ready to use.
